Event Report

Webinar – Data Science
(June 6, 2020)

Event Information

Event Type: Webinar

Event title: Webinar – Data Science

Resource Person: Ms. Varsha Mali, Data Scientist at Great Learning

Event date: From: 3.30 pm

To: 5.00 pm

Organized for: Students

Organized by: IETE Students' Forum

Target audience (branch & nos.): 109 Students from SE & TE (all branches)

Attachments: 1. Photographs (in JPEG/PNG)

2. Attendance report

3. Feedback

4. Impact Analysis

Event Description

IETE Students' Forum of SIES Graduate School of Technology, Nerul, conducted a webinar on Data Science. It was conducted by Ms. Varsha Mali on June 6, 2020, for the Students of SE & TE.

The workshop started with a conceptual introduction to Data Science, such as use in different fields, importance etc. This was followed by different key skills and Data Science roles. The students were introduced with the concepts of Data Science Knowledge stack, Softwares and its uses in day-to-day life. They were then given the insights of topics such as classification, clustering, regression, SQL-Databases etc. with programming examples to understand.

The rest of the workshop is focused on specific feature sources, and for each progressed through a short introductory knowledge followed by some real life examples, starting with standard and well-behaved cases, and ending with real-world and realistically problematic case studies. The students were then given key points for preparation for their Interviews, building strong networks, practical experiences and building strong resumes. At the end there was Q/A session where students cleared their doubts.

1. Photographs (in JPEG/PNG)

The screenshot displays a Google Meet session titled "INTRODUCTION TO DATA SCIENCE...". The main content is a slide with a central purple box containing the text "Data science can answer a lot of questions as well". Below this box are four smaller purple boxes, each containing a question, with arrows pointing upwards towards the central box. The questions are: "How many viewers like the same movie?", "Which route will help me to reach faster?", "Will this AC work for 3 years or fail earlier? yes or no?", and "Who will win the world cup?". The meeting interface shows the presenter "varsha mali" and a list of participants including "mandar sawant", "Arjun Pillai", "ritu rao", "PIMPLE VIVEK DINKAR", "praveena viswarajan", "diwan kadir", "aishwarya jagadiswar...", and "Aftaab Sheikh".

2. Feedback Analysis:

Impact Analysis: Students gained the knowledge and exposure to Data Science. Designed for students with a variety of professional backgrounds and experience levels including beginners, this webinar takes a deep dive into the fundamentals of Data Science. Many of the participants were interested to learn more about Data Science and were eager to gain hands on experience for the same.
