System Information, IP Addresses and Referrers

When you connect to our website, our web server may record the numerical Internet Protocol (IP) address of the computer you are using, information about your browser and operating system, date and time of access and the internet address and page which linked you to our web site. The staff of SIESGST uses such information to diagnose problems, to administer and improve our website and to generate aggregate statistical reports that analyse general user information and demographics. In addition, we ordinarily do not disclose site usage to third parties by individual IP addresses, but may do so in very limited circumstances when complying with law or legal process, working with consultants assisting us in fixing or improving our site, or in monitoring and improving the security of our network. Our staff monitors search terms that users enter into our Search Engine, but this tracking is never associated with individual users.
