Event Date: 28th January 2023

Organized for: Students

Organized by: CSI SIESGST

Target Audience (Branch & Nos.): Engineering students

**Attachments : 1. Photographs (in JPEG/PNG)
2. Impact Analysis**

Impact Analysis:

The competition allowed the participants to gauge their skills against their peers and witness different informative posters on the topic of data privacy. The participants portrayed their poster making and design skills in a unique and innovative manner and presented their ideas to the world through their posters. It helped many participants throughout India to get an insight on creating technical posters and presenting it in front of a panel of judges. The feedback from the participants was a positive one as everyone appreciated the CSI SIESGST Student Branch for conducting the poster presentation competition for the second time.
