What is Ideation?

- As the saying goes “Small minds discuss 'people', average minds discuss 'events' but great minds discuss 'ideas'.
- Hence we are here to identify such great minds and give them a platform to discuss their ideas in our event known as ‘Ideation’.
- It provides a medium for the enthusiasts, for generation of creative and technically productive ideas.
- Ideation’24 will be conducted on Saturday, September 21, 2024.

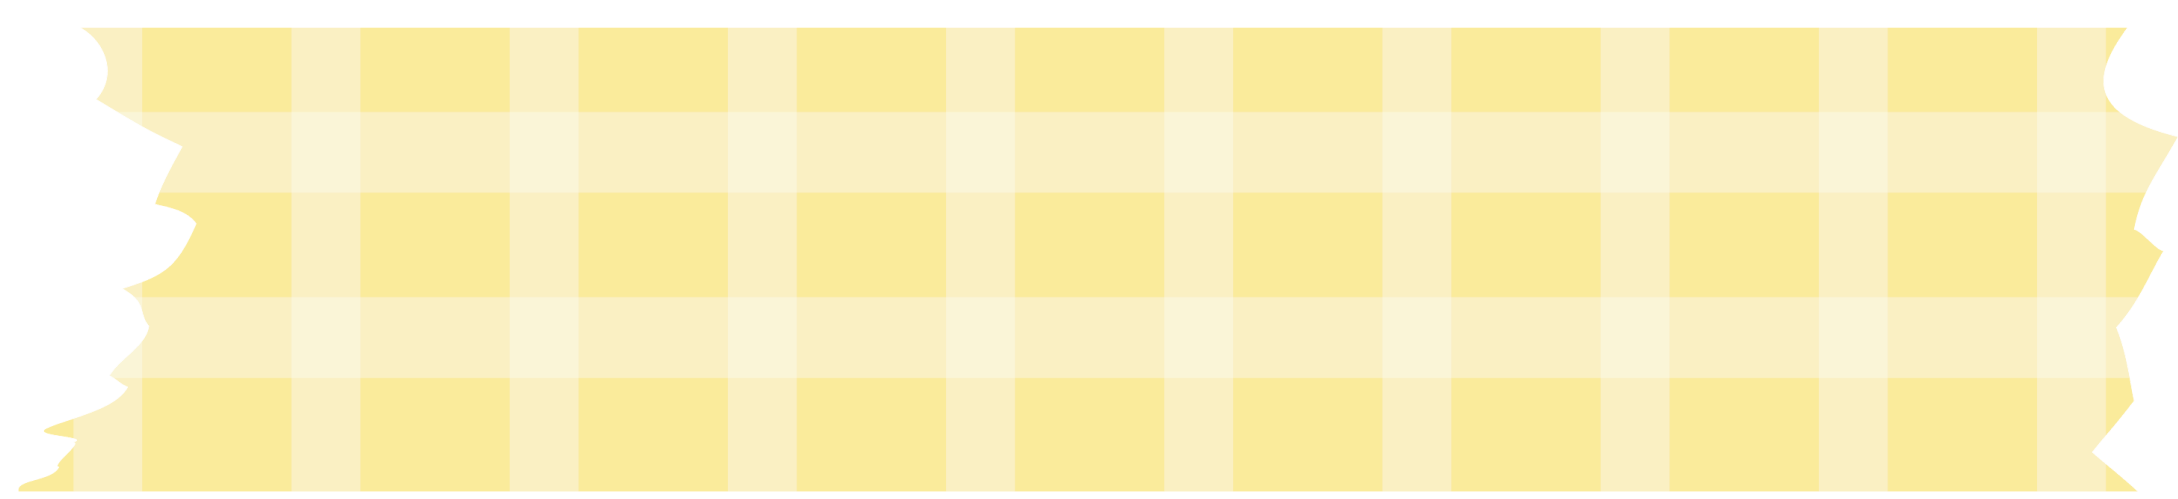

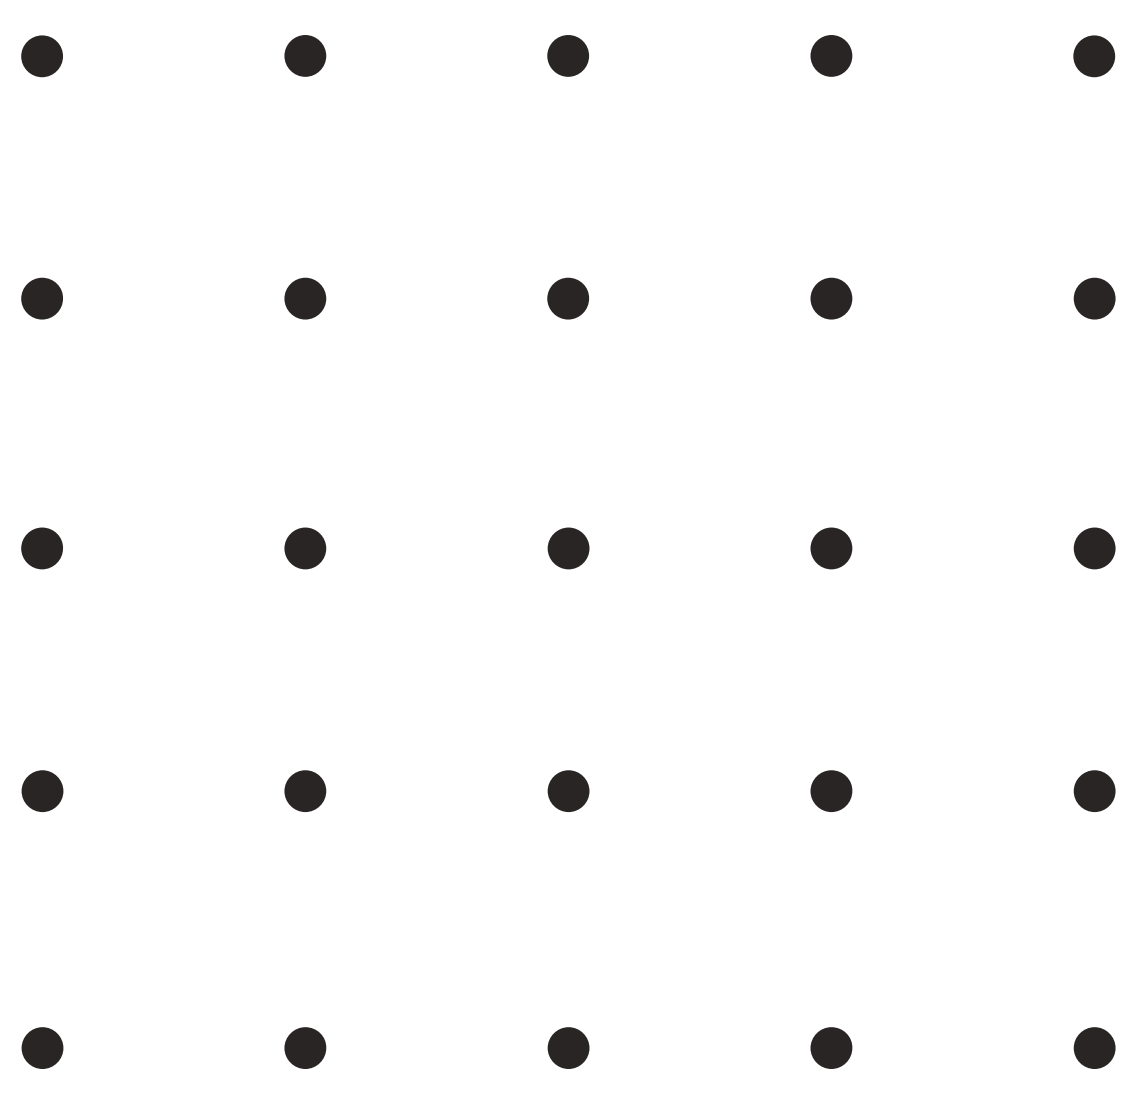

How does it work?

- Our aim is to give back to the society in ways more than one, and to solve most of the commonly faced issues with the help of technical ideas, which can then be taken up as first-hand projects.
- Participants will be given a problem statement which is a community issue and you will be given time to fill the gaps that our NGO partners face to implement such ideas.
- At the end of session you have to present your idea and the most appropriate, optimal, practical and unparalleled idea wins the competition.

What's in it for you?

- Winners will be given cash prizes and goodies.
- First-place winners will receive a **drone worth 14k!**
- Participants can be from various technical backgrounds.
- Around 10 am you will be given a problem statement and only a maximum of 2 teams will be allowed to select 1 problem statement (it is suggested to work on different problem statements).
- Once done, you will be given 2 hours for brainstorming session to convert your idea into a PPT format.
- The most optimal, practical idea will win the competition.

ABOUT US:

IETE Students' Forum.

The IETE Students' Forum (ISF) of SIES-GST was inaugurated in March 2008. It plays an active role in organizing technical & extra-curricular events in the college. ISF believes in originality and has strived to include something innovative in their events and projects. ISF's motto is to encourage teamwork and the spirit of inquisitiveness among the student members. Major events held include Techxter - A National Level Technical Paper Presentation, Mindspark - A Technical Quiz, Bootcamp on Design Thinking and Design Innovation, Projexions - A Project Presentation and Competition in the field of Web Development and IOT, workshops and seminars on advancing technologies.
