

## **Department of Humanities & Applied Sciences**

### **Student Development Programme on Engineering Mathematics for GATE Examination June 29 to July 3, 2020**

This SDP will prepare students for the forthcoming GATE examination. It will enhance fundamental and analytical skills to tackle mathematics questions. This will also help them score better and improve their national rank. It will also help students gain confidence in this subject.

#### **OBJECTIVES**

- A gentle introduction of the topics required towards the upcoming technologies.
- To prepare students for the competitive examinations like GATE examinations.

#### **WHO WILL BE BENEFITED?**

- All the students willing to excel in their professional life.

#### **PREREQUISITE**

- Basic knowledge of Engineering Mathematics.

#### **OUTCOMES**

##### **Learner will be able to:**

- Apply the concepts of mathematics in upcoming technologies.
- Solve the mathematical and statistical problems in GATE examination.
