Event Description

A "Mobile App Development" SDP was conducted for the students of SIESGST from 26th June to 1st July 2023 at 10:00am to 4:00pm

Internal faculties of Artificial intelligence and data science department were delivered four days sessions of Android using Java, Kotlin and Flutter. Last day Mr. Danish Shaikh, Software Developer conducted the guest session, where he covered the topic "How to use Flutter" in industry. The lecture was started by him giving an introduction of the Flutter and show demos and hands on.

He then covered the latest tools and techniques used in Flutter. As the time progressed, the students were implemented application using Flutter.

Towards the end, Mr. Danish Shaikh explained importance and advantages of Flutter in industry as well as he guide students about internship.

All five days session covered how to build Mobile App and there use in industries. Students get knowledge of Android and Flutter for development of Application.

4. Impact analysis

After completion on one week SDP on Mobile App Development program students are now well aware of Android and Flutter and how to build App. They also learned the importance of Mobile app and they will use this knowledge for their project work.

A handwritten signature in green ink, consisting of a stylized 'K' followed by a horizontal line and a small loop.
