

Department of CSE (IoT & Cybersecurity including Blockchain Technology)

SDP Report

Cloud Computing

Event Information

Event Type: SDP

Event title: Cloud Computing

Event Date: Dec 17 to Dec 23, 2022

Organized for: SIESGST TE/BE Students

Organized by: CSE IoT Dept. SIESGST

Target Audience: TE/BE Students

Resource Person: Dr. Shubhangi Kharche, Prof. Ujjwala Rawale, Dr. Rizwana Shaikh

Attachments:

1. Photographs (in JPEG/PNG)
2. Attendance (Screen Capture)
3. Feedback
4. Impact analysis

Event Description

Cloud computing is a colloquial expression used to describe a variety of different computing concepts that involve a large number of computers that are connected through a real-time communication network (typically the Internet). Cloud computing is Internet-based computing, whereby hardware and software resources are provided to users on-demand. It is a by-product and consequence of the ease-of-access to remote computing sites provided by the Internet. Through cloud computing, you are able to use software delivered through the Internet on the browser without any installation, host an application on the Internet, set up your own remote file storage and database system and more. This is a jumpstart into cloud computing, which starts from "What is a Cloud?" and covers many aspects of Cloud Computing & Demonstration of Amazon Web Service hands-on. This SDP is ideal for anyone wanting to know cloud computing, which has taken the IT world by storm, and would prefer to upgrade their skills and enter the new, in-demand cloud job market as a Cloud Architect, Consultant or Cloud Professional.

About Instructors:

This course will be taught by a team of various cloud experts from Industry and SIESGST faculty members of the CSE and CE Department.

Industry Expert from Cloud Computing Domain:

1. Ms. Sujata Khandekar, Software developer, TCS, Mumbai.

Faculty Members:

1. Dr. Shubhangi Kharche, Associate Professor, Head Computer Science and Engineering (IoT, Cybersecurity, Blockchain).
2. Dr. Rizwana Shaikh, Associate Professor, Head Artificial Intelligence and Data Science (AIDS).
3. Prof. Ujwala Ravale, Assistant Professor, Computer Engineering Department.

The One week SDP provided handson to the students on AWS and Azure Cloud Platforms followed by quizzes and project.

4. Impact analysis:

After attending the SDP the students are now well aware of the cloud computing Services. They got insights on the kind of services offered by AWS and Azure. They implemented project on lambda containerization and understood the use of different tools for accessing different services.
