

Random act of kindness - 19/02/2020

It's the smallest things that make the biggest differences. A small kind gesture easily turns out to be a significant memory for the benefactor that inspires him to continue the chain and cause an endless ripple. With the belief that even smallest act of kindness could enrich a stranger's life, the NSS unit of SIESGST conducted a social drive wherein the volunteers readily helped various strangers complete their day-to-day work.

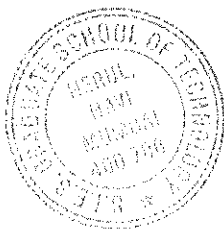

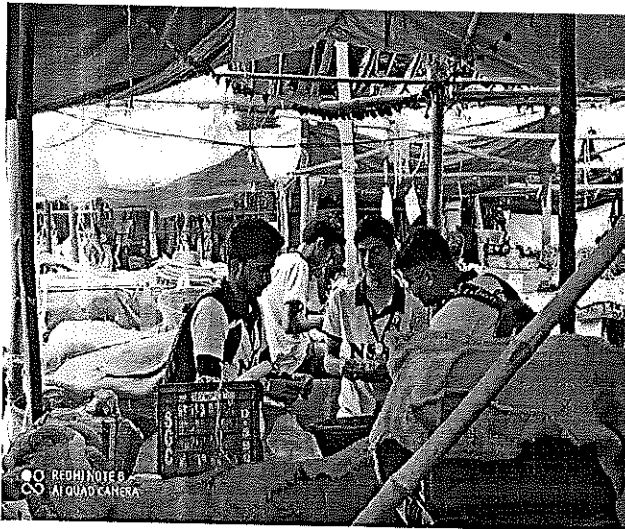

The volunteers covered various locations in Nerul, Navi Mumbai during this activity and made sure to give an extra set of hands to each individual who needed them. At first, most of the people whom they approached were hesitant to accept help from strangers but as the volunteers started communicating with them, they slowly built their trust. They helped in unloading Logs, arranging vegetables and fruits in the market, cleaning and cooking in the Gurudwara, carrying vegetable crates and much more. After about 2 hours, the volunteers re-assembled in college to share their experiences.

This turned out to be a very humbling experience for the volunteers as the kindness shown by them was amplified to a level that they were overwhelmed by the feedback. This activity truly helped the volunteers in imbibing philanthropic values that will guide them throughout their life.

Anveshana Report

UDGAM, in collaboration with Agastya foundation, undertook a project ANVESHANA, which was a Science & Engineering competition conducted by Agastya Int. Foundation, further culminated in a fair where the students exhibited their projects/models. This competition primarily involved undergraduate Engineering students and underprivileged school-going students where the students together followed philosophies and practiced hands-on learning, research orientation and making models based on Engineering-Science concepts. The engineering students mentored these students in the creation of models while inducing knowledge and confidence in them.

Engineering colleges participated as teams with 2 members. The teams then selected 2 students from nearby underprivileged schools (Govt. and Govt. aided schools) to mentor them to design and build models or projects around an identified social problem. The school students thus received exposure to the entire planning, designing and building process of the models and in turn will get educated in the scientific and engineering concepts behind the models in Anveshana.

Teams from various branches in SIES GST participated in the competition. Starting from December upto February, students made regular visits to the school located near the college to teach the school kids. They explained all the basic concepts pertaining to their projects to them. Four teams from our college were in the top 25 and one of them bagged the consolation prize. Overall it was a great experience for both the school kids as well as the engineering students.

ISR Beacon Annual Report – 2019-2020

SIES Graduate school of Technology stand with its vision of social empowerment and equality committing to the task of inclusive social upliftment and equality. The management has adopted “Project Beacon “as our Institute level social responsibility (ISR) . Project beacon incorporates for the targeted youth a set of training programme that are recognized by, and relevant to the requirement of industries and service providers. The courses like sewing tailoring, AC Mechanic, Electrician, computer operator, web designing, screen printing and welding. Project beacon is small step to give meaning and purpose to someone’s life. The main objective is to provide an opportunity to untrained/unemployed/school drop outs youth through skill based education. The courses are giving more focus on practical hands-on training with minimum required theoretical background. They are also undergo a compulsory foundation course comprising of basic communication and computer skills along with an exposure to various allied fields. SIES GST is committed to initiate and sustain the project to the best of its capabilities. 15 NSS volunteers helped to get admissions and functioning of classes.

The following is the details of different courses.
