Event Report

Student Development Program on Gen AI

(6 Jan to Jan 11, 2025)

Event Information	
Event Type: Value Added Course on Gen AI	
Event title: Gen AI	
Resource Person: Urvashi Patkar Ms Sujata Kamble Dr. Arathi B Dr.Kalyani P Mr Rohan Sawant	
Event date: 6 Jan to Jan 11, 2025	
<input type="checkbox"/>	Organized for: Student Faculty
Organized by Department of Computer Engineering	
Target audience : FE SE and TE students Branch: All branches Number of students registered: 45 Number of students joined on first day: 35 Number of students completed the course: 35 Number of students completed the internship projects: 15	
Attachments: 1. List of students 2. Attendance report 3. Feedback Certificate, Photographs (in JPEG/PNG)	

Event Description

Topic: GenAI Applications

Explored prompt types: AI, Machine learning, Statistical methods, Large language models (LLMs), Synthetic data generation, Digital twins, Generative adversarial networks (GANs)
The Biggest Pitfall of Using LLMs in Retail & E-Commerce (And How to Avoid It)

One of the biggest challenges we see when working with clients is the misconception about what LLMs (Large Language Models) can and can't do. This leads to inefficiencies, poor implementation, and costly mistakes down the road.

Better approach?

Use an e-commerce platform's built-in calculations engine

Implement formulas using Python, Excel, or BI tools

Best Practices to Avoid These Pitfalls

- ✓ Use LLMs to generate formulas or logic but always double-check the outputs
- ✓ Implement actual mathematical operations in Python, SQL, or Excel
- ✓ Break complex workflows into step-by-step rule-based systems

1. List of Students
