Event Description

The club held an introductory session for the students of SIES GST on the basics of machine learning. The session was conducted by Mr. Pratham Yashwante, final year student on 4th April 2024 along with club members. The students were introduced to the different types of machine learning as well as to the workflow of a machine learning project. They were also given an elaborate explanation to supervised learning algorithms for regression and classification. During the session, the students completed two projects of their own as well.

TOPICS COVERED

- Introduction to ML
- Types of ML
- Classification
- Hands on practice on KNN model

STUDENT FEEDBACK:

The session was highly informative, and allowed the students to get a brief hands on knowledge of ML model. Students have given very good feedback and were pleased with the flow and concepts covered in the talk.
