**Attachments: 1. Photographs (in JPEG/PNG)  
2. Impact Analysis**

#### **Objective**

The objective of this event was to create a platform where ideas could flow freely and connect people through stories and experiences. The main goal of TEDx SIESGST 2025, themed “Neurons and Narratives”, was to explore the intersection of thought and storytelling — how ideas originate, evolve, and inspire through the power of human connection. The attendees got the opportunity to listen to thought-provoking talks from speakers across diverse domains, from technology and creativity to leadership and innovation.

## Event Description

The TEDx committee of SIES Graduate School of Technology reached out to various distinguished speakers from multiple fields to align with this year's theme "Neurons and Narratives." After a careful curation process, the final lineup of speakers was selected to share their unique journeys and perspectives. Each speaker captivated the audience with stories that reflected their ideas and experiences, illustrating how narratives can shape innovation and change.

In addition to the talks, performances by artists and musicians added vibrancy to the event, ensuring a dynamic and engaging atmosphere throughout. The event commenced at **10:00 AM** and concluded successfully at **4:00 PM**.
