About SIES

The South Indian Education Society (SIES) established in 1932 at Matunga is a pioneer in the field of education in this metropolis. The Society has been serving the cause of education and has carved for itself a niche as a provider of quality value based education from Nursery to Doctoral level in a wide variety of fields. The Institutional Mission by our Founders: "This Society should sincerely serve the cause of education and the educational needs of the common man of this cosmopolitan city".

About SIES Graduate School of Technology

SIES Graduate School of Technology, an integral part of this well-established Community, started in the year 2002. The institute is located amidst the educational hub of Navi Mumbai and has been imparting quality technical education, offering four year Bachelor of Engineering courses in:

- Information Technology
- Electronics and Telecommunication Engineering
- Computer Engineering
- Printing & Packaging Technology
- Mechanical Engineering

The institute is approved by the All India Council for Technical Education, New Delhi, affiliated to the University of Mumbai and accredited by NAAC.

Department of Information Technology

The Department of Information Technology came into existence in 2002, and at present is operational with an intake of 60. It has progressed rapidly, to be regarded, as one of the premiere departments with excellent infrastructure. It has dedicated, highly qualified faculty members with excellent infrastructure and state of the art laboratories, in order to give the students a holistic and pragmatic view of the present scenario in Information Technology.

Program Objective

The primary objective of an Orientation program on "DevOps Labs" is to discuss the syllabus of the above said subjects.

Concept of DevOps with related technologies which are used to code, build test, configure and monitor the software applications. Following are tools to be discussed:

- Version control (RCS/CVS/GIT/Mercurial)
- Continuous integration using Jenkins
- Infrastructure monitoring using Nagios
- Docker – containerization
- Software Configuration Management and provisioning using Ansible and Puppet.

Resource persons:

Dr. Deven Shah

Chairman BOS, IT, University of Mumbai.
Vice Principal, Thakur College of Engineering & Technology, Kandiwali

Dr. Bhushan Jadhav

Assistant Professor,

TOPICS TO BE DISCUSSED

1. Scope of each topic in syllabus.
2. Content wise mapping to POs.
3. Lab work
4. Any other issue related to the subject

Who can apply?

Faculty members from various AICTE/UGC DTE approved Engineering colleges. Please confirm the participation through google form as early as possible.

ORIENTATION PROGRAM REPORT

The orientation program for newly introduced subject (ECC-801 and ECL-801) RF Design and RF Design laboratory, in Semester VIII of EXTC engineering was held on 8th January 2020, conducted under IQAC in SIES Graduate School of Technology, Nerul, Navi-Mumbai. Dr. C. D. Rawat, from Vivekananda Education Society's Institute of Technology, Chembur, addressed the meeting as a subject expert. The syllabus was discussed thoroughly. The books to be referred to cover the entire syllabus were discussed.

The total of about 44 delegates from various Mumbai University Colleges had participated in this orientation program, where in, the expert Dr. C. D. Rawat have guided all the participants regarding the depth in which the topics are to be taught, books to be referred, labs (experiments) to be conducted, and solved queries of the participants. The PPT guidelines were also provided.

Module No.	Important points discussed	Books to be referred	Remark/ Comments
1	RF Filter Design:	Only design problem, No derivation is expected. Book: Microwave Engineering by David M Pozar.	Marks= lecture hours * 2=10*2=20M
2	Amplifier Design:	Only design problem, No derivation is expected other than power gain. Book: Microwave Engineering by David M Pozar.	8*2=16M
3	Frequency Generation and Mixer:	Oscillator design numerical and derivation of $\Gamma_{in} \Gamma_S = 1, \Gamma_{out} \Gamma_L = 1$, phase margin related. In Mixer no design numerical is expected. Book: Microwave Engineering by David M Pozar	8*2=16M
4	Frequency Synthesizer:	Derivations are expected in synthesizer. Book: Modern Communication Circuit by Jack Smith	6*2=12M
5	Electromagnetic Interference in RF Circuits:	Question bank is shared by Dr. Rawat Sir. Book: Engineering Electromagnetic	8*2=16M

PRINCIPAL

		Compatibility: Principles, Measurements, Technologies and computer Models by W. Prasad Kodali	
6	Electromagnetic Compatibility :	Question bank is shared by Dr. Rawat Sir. Book: Engineering Electromagnetic Compatibility: Principles, Measurements, Technologies and computer Models by W. Prasad Kodali	8*2=16M

RFDLab:

The experiments on calibration of Vector Network Analyzer (VNA) and study of filter (LPF, HPF, BPF) characteristics, using VNA or spectrum analyzer can be carried out. Amplifier and Oscillator design based experiments can be designed. Simulation software's also can be used to perform some of these experiments. Industrial visit can be arranged at SAMEER, Kharghar, Navi-Mumbai or at any other RF-Microwave industry, specially for getting new insights on EMI-EMC set-up. Also, case study and mini-projects can be given to the students.

Faculty Development Program on
Online Teaching-Learning Practices and Tools

Dear Concerned,

Greetings to all!!!

We are glad to inform you that we are conducting exciting Series of two days session on Online Teaching-Learning Practices and Tools

Date: 8th May '20 to 9th May '20, time: 3:30 pm to 5:00 pm

During this lockdown period these series of sessions will help you to enhance your skills in online teaching exploring various tools which will aid in this transition.

Course Objectives:

1. To teach best practices in creating online teaching-learning content.
2. To provide overview of various open source tools to create online teaching-learning content.

Course Outcomes: Faculty will be able to make use of various open source tools for creating and live streaming videos and creating interactive videos.

Course Content:

Day1:

1. Online teaching-learning content, pedagogy and assessment by Dr.Deepti Reddy
2. Creating videos and live streaming, video transcoding Prof.Ujwala Rawale
3. Online Tools used for writing & solving mathematics. Prof.Prasad B.Iyer

Day 2:

1. Adding narrations and explaining concepts: Dr.Aparna Bannore
2. Creating Interactive videos by adding interactions in recorded videos. Prof.Pranita Mahajan
3. Post production of recorded videos (editing and adding other content) to make videos presentable. Prof.Prasad B.Iyer

DEPARTMENT OF COMPUTER ENGINEERING

Report

Faculty Development Program on “Online Teaching-Learning Practices and Tools”

Date: 8th May '20 to 9th May '20, time: 3:30 pm to 5:30 pm

The two days faculty development program was conducted on topic “Online Teaching-Learning Practices and Tools” with an objective to help faculty to enhance online teaching skills during this period of lockdown where online teaching is inevitable.

Course instructors: Dr. Aparna B, Dr. Deepti Reddy, Ms. Ujwala Ravale, Ms. Pranita Mahajan, Mr. Prasad Iyer.

Mode of conduction: Virtual using Google Meet

Course Objective:

1. To teach best practices in creating online teaching-learning content.
2. To provide overview of various open source tools to create online teaching-learning content.

Course Outcomes: Faculty will be able to make use of various open source tools for creating videos, live streaming videos and creating interactive videos.

Course Content covered during the FDP and the instructors details are given below:

Sr.no	Content	Description	Instructor
Day 1			
1	Practices for quality online teaching-learning.	The practices to be followed for effective online teaching was covered. The focus was on how to integrate content, pedagogy and assessment in the online teaching mode	Dr.Deepti Reddy

PRINCIPAL
S. I. E. S. GRADUATE SCHOOL OF TECHNOLOGY
Sri Chandrasekarendra Saraswathy Vidyapuram
Sector-V, Nerul, Navi Mumbai - 400706

		to make teaching-learning interesting and engaging for the students.	
2	Creating videos and live streaming, video transcoding.	To provide overview of various open source tools to create online teaching-learning content mainly video creation and video transcoding. The Open Broadcast Software (OBS) Studio was used to demonstrate online video creation. HandBrake tool had demonstrated for video transcoding purpose.	Prof.Ujwala Rawale
3	Online Tools used for writing & solving mathematics.	Various tools were demonstrated for writing mathematical problems / equations using online / offline tools. The tools covered were: 1. Desmos, 2. Whiteboardfox 3. Google Chrome Extension Whiteboard 4. Google Jamboard 5. Microsoft OneNote	Prof.Prasad B.Iyer
Day 2			
1	Open Source Tools for Creating e-Contents	The objective was to demonstrate the use of tools for creating mind map/concept map. Various tools for creating e-content covered were: Table top (Numericals) Screencast (Software rogramming,training) SlideCast(Theory,Concept) Podcast(Language training,PD)	Dr.Aparna Bannore
2	Creating Interactive videos using H5P.	The objective was to demonstrate how to create interactive videos and Quiz using h5p tool. The importance of adding interactivity, the procedure of identifying reflection spots and various forms of questions was discussed. Later the H5P was demonstrated.	Prof.Pranita Mahajan
3	Post production of recorded videos (editing and adding other content) to make videos presentable.	The tools to edit videos post production were demonstrated. The tools are: Edit video, Snap camera, Manycam, adobe Premiere, Microsoft stream, Window Movie Maker, Openshot and Videopad.	Prof.Prasad B.Iyer

PRINCIPAL
S. I. E. S. GRADUATE SCHOOL OF TECHNOLOGY
Sri Chandrasekarendra Saraswathy Vidyapuram
Sector-V, Nerul, Navi Mumbai - 400706

Participants

The FDP was attended by 46 faculty members from SIES Graduate School of Technology.

Assignments

The assignments were given at the end of the session to allow participants to practice the tool and create videos accordingly.

On day 1, the assignment was given to create a 2 min video using the best practices discussed in session1 and use OBS studio and handbrake tools to create video and upload.

On day2, the assignment was given to create interactive videos using H5P tool and upload.

Feedback

The survey was taken at the end of the workshop which included following five questions and asked to rate on the scale given (5. Strongly agree 4. Agree 3. Neutral 2. Disagree 1. Strongly disagree).

Q1: The instructor effectively explained and used time effectively.

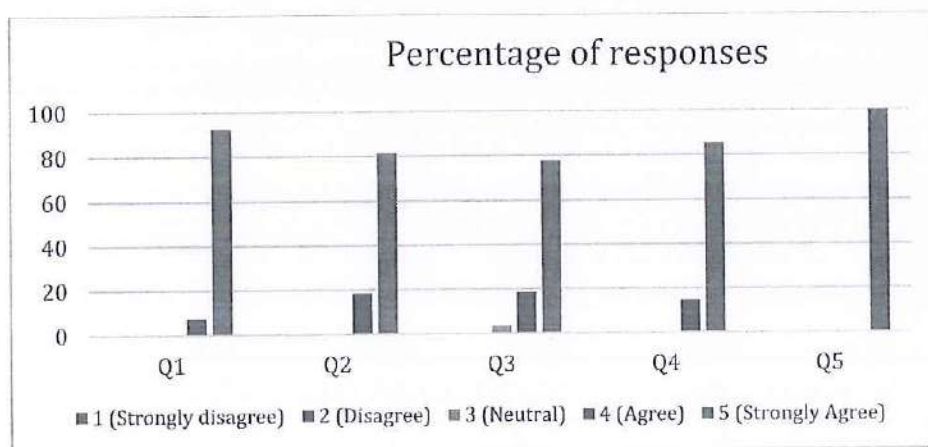

Q2: The instructor presented course material in a clear manner that facilitated understanding.

Q3: Course was well designed and adequate visual to make it more interesting.

Q4: Course help to develop knowledge and skills.

Q5: Environment was feel free to ask doubt and express views

Total 27 participants submitted feedback. The percentages of responses are shown in the graph below.

Event Description

The sixth iteration of Model United Nations 2020 was conducted on 29th February & 1st March 2020. It was a two-day international relations conference for all the college students at SIES Graduate School of Technology, Nerul. This year, there were two committees, DISEC (Disarmament and International Security) and UNHRC (United Nations Human Rights Council) and AIPPM (All India Political Parties Meet) highlighting on the agendas:

1. DISEC – To discuss the issues related to Nuclear Disarmament.
2. UNHRC -
 - 1) Preventing potential human rights infringements emerging with the technological developments in networking and communication.
 - 2) Improving employment opportunities for refugees and displaced persons(DPs)
3. AIPPM -
 - 1) Implementation of uniform civil code across the country
 - 2) Discussion of the bills passed by Modi 2.0 government with special emphasis to transgender persons(protection of rights)bill,2019.

With these agendas, DISEC had 27 delegates, UNHRC had 28 delegations and AIPPM had 21 delegates . DISEC committee was chaired by Mr. Ishaan Chitnis and co-chaired by Mr. Vignesh Narayanan. UNHRC was chaired by Mr. Tejas Shridhar and co-chaired by Mr. Shankar Balasubramanian. AIPPM was chaired by Mr. Hrishikesh Gayakwad. All the three committees saw an enthusiastic participation of the delegates.

The DISEC committee saw Bhavye Kakkad as the winner of MUN'20 while Aditya Kiran and Shlok Jagushte bagged the high commendation award. Whereas in the UNHRC committee, Heramb Gupta and Sakshi Kherde stood as the winners of MUN'19 while Swapnil Singh and Jay Joshi and Shabarish Ramaswamy and Shlok Naik bagged the high commendation award. In the AIPPM committee, Dhruv Thakker took home the Best Parliamentarian award and Avinash Tripathy won the Joint-Best Parliamentarian award.

Bytecamp 2020 report

The 4th iteration of SIES GST's official hackathon took place on 22nd and 23rd February, 2020. This year out of 80 registrations we had short listed 20 teams for one day hackathon. We had 12 teams from SIES GST, 3 teams from Fr, Conceicao Rodrigues College Of Engineering, 1 from St. John College of Engineering, 1 from K.J Somaiya College of Engineering, 1 from Ramrao Adik Institute Of Technology, 1 from Thakur College and 1 from Vellore Institute Of Technology. Out of these 20 teams we had 15 teams present for the hackathon on 22nd and 23rd February, 2020. The hackathon started with a panel discussion with our 3 panelists Mr. Ali Mustufa,, Mr. Smith Jethwa and Ms. Satveen Chhatwal from The Tensor Flow Community. The teams built solutions for their problem statements based on our theme, "DATA REVOLUTION " in 24 hours under the guidance of our mentors. All the 15 teams presented their idea after the end of 24 hrs in front of our Judges, Mr. Siddharth Kumar and Mr. Santosh Chapaneri.

Event Report

NBA Requirement and PO Attainment Calculation Methodology
(Dec 23, 2019)

Event Information

Event Type: Seminar

Event title: NBA Requirement and PO Attainment Calculation Methodology

Resource Person: Dr. Abhay S Wayal, Associate Professor VJTI, Mumbai

Event date: December 23, 2019 **from:** 10:00 am **To:** 01:00 pm

Organized for: Faculty Members, SIESGST

Organized by: IQAC, SIESGST

Target audience: Total 65 faculty members were present.

Description :

- Dr. A. S Wayal gave insights of Outcome Based Education (OBE). He explained the following points in detail.
 - ✓ CO-PO/PSO Mapping
 - ✓ Various Terminologies
 - ✓ Expected Outcomes
 - ✓ Bloom's Taxonomy
 - ✓ Observable and Measurable Course Outcomes
- He also narrated three short stories to inspire faculty members.
- The discussion was also carried on definition of Accreditation, significance, benefits, global visibility, etc.
- The model of Accreditation was also explained by him.
- OBE model measures were discussed by him.
- Significance of various student surveys in the calculation of indirect attainment was also informed to faculty members.
- Significance of LO's and CO's, framing their statements, mapping questions to CO's and Bloom's

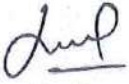

PRINCIPAL
S.I.E.S. GRADUATE SCHOOL OF TECHNOLOGY
Sri Chandrasekarendra Saraswathy Vidyapuram
Sector - V, Nerul, Navl Mumbai - 400706

Taxonomy was also explained by Sir with example.

- Importance of Strategic Plan was informed to faculty members.
- Various indirect tools based on feedback were discussed.

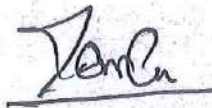

Impact Analysis:

- Various doubts of faculty members related to OBE and different processes were cleared.
- I/c Principal, Dr. Atul Kemkar asked all faculty members to review and complete the points related to NBA preparations.

Dear All,

With reference to the session on "NBA preparation and CO attainment calculation methodology" conducted by Dr. Abhay S. Wayal (VJTI, Mumbai) on 23/12/2019, following points should be reviewed and completed at the department level by **Jan 2, 2020**.

1. Process documents for the criteria 1 and 2 to be reviewed by the department and should be sent again to Prof. Prasad Iyer and Prof. Sumitra Iyer.
2. Reframe the COs wherever required and ensure that they are measurable and observable
3. Mapping of COs with POs after revising the COs, if any
4. Keep course files ready for the year 2018-19 with attainment of CO-PO -PSO
5. Keep the internal test question papers with proper COs and critical thinking levels
6. Make sure that following things are updated and uploaded on the website:

- List of faculty as on date
- List of laboratories
- Syllabus copy,
- Placement and higher studies details
- CO/PEO/PSO,
- Faculty profile with photo,
- Students Achievement
- Attainment calculations to be re-done as per instructions given by Dr.Wayal.

Thanking you,

Dr.Atul N Kemkar

About SIES

The South Indian Education Society (SIES) established in 1932 at Matunga, is a pioneer in the field of education, in this metropolis. The Society has been serving the cause of education and has carved for itself a niche, as a provider of quality and value based education from Nursery to Doctoral level in a wide variety of fields.

About SIES Graduate School of Technology

SIES Graduate School of Technology, an integral part of this well-established Community, started in the year 2002 is located in the midst of an educational hub in Navi Mumbai imparting quality based technical education, offering four year Bachelor of Engineering courses in;

- Electronics and Telecommunication Engineering,
- Computer Engineering,
- Information Technology,
- Printing & Packaging Technology and
- Mechanical Engineering.

Department of Printing and Packaging Technology

Department of Printing & Packaging Technology runs on exclusive industry oriented engineering program on Printing & Packaging Technology established in 2006-07 affiliated to University of Mumbai which was a first of its kind course in the whole of India with a sandwiched professional internship program in the final year. The department has received BEQET President's Award 2013 from NCQM, Mumbai.

The department has MoUs with various reputed industries like ESKO Graphics, Singapore, Printweek India, Mercury Industries Ltd., Pressman Solutions for Student Internship Program, workshops and consultancy projects.

The Course Objective

- To understand Food Packaging Principles, different materials used and its properties
- To learn different predictive models for shelf life estimation.
- To get an insight on the latest packaging technologies and their applications.

Resource Persons:

78

Experienced resource persons from industry and reputed institutions.

The Course Contents

Day	Topics
Day 1	Basic principles, various package forms, major materials used, desired material properties, Importance of WVTR, OTR, Permeation, Migration
Day 2	Shelf life principles, Factors affecting shelf life, Sensory evaluation.
Day 3	Shelf life various models, ASLT concepts, ASLT for products, packaged products and its interpretation
Day 4	ASLT Case Studies
Day 5	Filling system for food packaging, Food preservation techniques, speciality packaging, Active/Intelligent packaging, MAP, CAP
Day 6	Hot Filling, Food Package Testing, Laws and regulations, GMP, HACCP

The Course Outcomes

Participants will be able to

- Apply the permeation and migration principles to select the barrier material.
- Calculate the shelf life of given product with various models.
- Choose relevant food packaging technology based on the required application

ONE WEEK AICTE – ISTE APPROVED SHORT TERM TRAINING PROGRAM
ON
“FOOD PACKAGING & SHELF LIFE ESTIMATION”

16/12/2019 to 21/12/2019

Report of the Program

Shelf life is the period of time for which the food product can be stored and remain suitable for use. It is important for food processing industries to maintain its shelf life to the fullest so that the food retains its nutritional value until it is consumed.

Food packaging plays a crucial role in maintaining the quality of the food product by providing barrier for moisture, air, oxygen, micro organisms and so on. Selection of barrier materials is a critical step in the industry as it depends on different factors. The factors like permeability/transmission rate, relative humidity, processability, low cost and so on.

Therefore, before selecting barrier material for food packaging, a thorough knowledge of food packaging principles is required.

The one week short term training program was organized with the following objectives:

- To understand Food Packaging Principles, different materials used and its properties.
- To learn different predictive models for shelf life estimation.
- To get an insight on the latest packaging technologies and their applications.

This program was organized for Faculty members from institutes offering Packaging Courses and Food Science & Technology courses, P.G/Ph.D students, Industry Personnel.

client ion Aalsameer (Netherlands. (c) Technical meeting and representation in Mariestead - Sweden, Manchester & London- UK , San Francisco and Chicago - USA, Singapore, Hong Kong, China, Taiwan and Korea.

In the late nineties as per the request of one of his multinational client Castrol India Limited he become an entrepreneur and set up the Crest Packaging Private Limited, in which he is the Founder Managing Director. This organization is Professional Contract Packaging Unit. This company has two units with an investment of Rs. 3.6Crores with a monthly production of 3000 tons of Lubricating Oil. In addition is also a Director of Packaging Professional Group – a Packaging Management Advisory organisation.

All along his passion for academics and research has made him closely associated with various institutions. This passion for academics, has made him took up the position of Full Time Chair Professor Director of SIES School of Packaging and Packaging Technology Centre wherein he has brought in modifications in the academic by bringing out the industrial approach to the academics so that the students passing out are more useful and acceptable to the industries. His objective in the institute is to setup the second line of defence with a group of qualified young professional and later work as their mentor. He was the Programme Director & Chair for the AVERY DESNNISON FOUNDATION USA PROGRAMME at the SIES SCHOOL OF PACKAGING – PACKAGING TECHNOLOGY CENTRE.

He is a Visiting Professor Examiner at the Universities of Mumbai, SNDT and Government of Kerala for MSc Nutraceuticals, MSc Bio-Analytical, MSc (Food Science & Nutrition), MSc (Food Processing & Preservation). He is also a guide for Food Science students for their projects. He is a member of the team for forming the course, Examiner and Moderator at the University of Mumbai. He has been appointed as Consultant to CSIR - CFTRI Mysore (Govt of India) for Shelf Life Studies of Food Projects. He is a member of

Daywise Report of the STTP:

Day 1:

Day 1 of the short term training program started with inauguration. Mr. Ainin Shahidi, Director of SIES School of Packaging, Prof C S Purushothaman Managing Director, Crest Packaging were invited as chief guest for the inauguration ceremony.

After inauguration the Prof. C S Purushothaman started with the session on Food Packaging Basics where he covered food packaging requirements, classifications of food, factors affecting food quality, concepts of permeation. The day ended with question answer session where the speaker clarified the doubts of all the participants.

Day 2:

On the second day, he covered the basic principles of shelf life, sensory evaluation as a tool for shelf life estimation of food product, the different methods of analysis of sensory evaluation. Sensory evaluation practical session was conducted for the participants where the participants were given two similar samples for the analysis based on different criterion. This activity was well received by the participants and they could understand how to carry out sensory evaluation of different products and what are the criterion to be considered for the analysis.

REPORT OF PROMETHEAN 2020: AN ENGINEER'S SOLUTION

Second year students of SIES Graduate School of Technology organized an event called **Promethean: An engineer's solution** for the First year students. This event was held in two Rounds, the First round being held on 3rd January, 2020 while the Second round being held on 31st January, 2020.

With numerous environmental problems faced globally and Climate change being the matter in hand, Students play a crucial role in bringing a change. This was the main intention behind organizing Promethean. Promethean is a Poster presentation competition where the students were exposed to environmental problems of today and they had to come up with engineering ideas of their own. Workshops were held prior to every round by the Promethean volunteers to guide the First year students with the presentation of their ideas.

The timeline of Promethean was as such:

1. Promethean Workshop 1–December 20, 2019
2. Promethean Workshop 2– January 2, 2020
3. Round 1– January 3, 2020
4. Promethean Workshop 3– January 11, 2020
5. Round 2- January 31, 2020

PROMETHEAN ROUND 1

Round 1 was a PPT Presentation. The students had selected their respective topics and prepared a PPT, refined and ready to be shown to the faculty and their classmates. The criteria for judgement included: Relevance, feasibility and novelty of the solution, Slide design, conclusion within time and slide limit and knowledge of the solution. The faculty asked apt questions to the students regarding their topics; Three-four teams from each division who prepared well and excelled in all the above criteria were undoubtedly selected for the Second Round.

PROMETHEAN ROUND 2

1. Promethean Workshop 3- 11 January 2020

The selected students were given details of Round 2, which was Poster Presentation. The things conducted in the workshop were: Details of Poster size and material to be printed on, Content and layout of the poster, Details of Topic selection procedure and Poster designing apps and websites.

2. Round 2- 31 January 2020

The event started with introduction of our judges to the Participants- Dr. Seema Mishra and Chitra Ramanan madam, followed by an introductory speech by Dr. Manasi Karkare madam, who then opened Round 2.

The students explained their solutions through their poster to the judges in detail. The judges questioned the students, where their preparedness was tested.

After an hour of detailed judgship, all the participants were done presenting the posters. The students were tested on their presentation, oratory, responsive, creative skills and knowledge of the problem and their solutions.

Four teams proved to be exceptional and clinched the winners tag. All Participants Were given the Participation certificates by the honored guests. A word of motivation by Dr. Seema Mishra ma'am and Dr. Manasi Karkare ma'am instilled confidence in the participants for their future endeavors. A vote of thanks concluded the Promethean 2020 event.

Promethean 2020: An Engineer's Solution Event Report

Event Information
Event Type: PPT and Poster Presentation
Event Topics: Engineering solutions to Environmental Problems
Event date: 3 rd January 2020 and 31 st January, 2020
Organized for: E.E Students
Organized by: S.E. Students under IQAC - SIES GST
No of Student attended: 134
Attachments: 1. Event Description 2. Photographs 3. Impact Analysis

Event Description

Promethean 2020 was a Presentation competition which was planned to be organized for the first-year engineering students. The Event was of 2 rounds with workshops being conducted before every round.

- **Promethean Workshop 1 - 20 December 2019**

The F.E. Students were explained the procedure of registration, Topic selection, PPT Designing and Round 1 of Promethean. Two volunteers were assigned for every division, and these volunteers would be the mentors for that class throughout the length of the event. The contents of the slides, time limit was also explained to the students.

- **Promethean Workshop 2 - 2 January 2020**

This workshop was aimed at reviewing the PPT made by the F.E. Students by their mentor volunteers. The students were given suggestions on how they can improve their PPTs content-wise and look-wise. There will be no common topics in a division, hence, all the teams from a division made their PPTs on different topics. The Students were also given suggestions on how they can present their PPT well before the faculty, like their posture, gestures, voice and clarity. Once a team's PPT was ready, they were asked to mail it to the Promethean team.

- **Round 1 - 3 January 2020**

Round 1 was a PPT Presentation. The students had selected their respective topics and prepared a PPT, revised and ready to be shown to the faculty and their classmates. The criteria for judgement included: Relevance, feasibility and novelty of the solution, Slide design, conclusion w/fit time and slide limit and knowledge of the solution.

The faculty asked apt questions to the students regarding their topics. Three-four teams from each division who prepared well and excelled in all the above criteria were undoubtedly selected for the Second Round.

- **Promethean Workshop 3 - 11 January 2020**

The selected students were given details of Round 2, which was Poster Presentation. The things conducted in the workshop were: Details of Poster size and material to be printed on, Content and layout of the poster, Details of Topic selection procedure and Poster designing apps and websites.

- **Round 2 - 21 January 2020**

The event started with introduction of our judges to the Participants-Dr. Seema Mishra and Chitra Ramanan ma'am, followed by an introductory speech by Dr. Manasi Karkare ma'am, who then opened Round 2.

The students explained their solutions through their poster to the judges in detail. The judges questioned the students, where their preparedness was tested.

After an hour of detailed judgship, all the participants were done presenting the posters. The students were tested on their presentation, oratory, response, creative skills and knowledge of the problem and their solutions.

Four teams proved to be exceptional and clinched the winners tag. All Participants were given the Participation certificates by the honored guests. A word of motivation by Dr. Seema Mishra ma'am and Dr. Manasi Karkare ma'am instilled confidence in the participants for their future endeavors. A vote of thanks concluded the Promethean 2020 event.

Impact Analysis

The motive and goals of Promethian 2020 were as follows:

- 1) To build in students awareness regarding Environment Protection and make them think of Engineering Solutions to overcome the problems.
- 2) To overcome stage fear and boost self-confidence.
- 3) To learn time and resource management.
- 4) To develop team bonding and working as a team.
- 5) To spill unique ideas of every individual.
- 6) To improve overall personality and embarking social responsibility.

According to a feedback conducted by the Promethian team, to take views of the First-Year students on the impact Promethian had on them, the following data is observed:

Conclusion

- 1) Promethian has brought an overall change in more than 75% participants.
- 2) More than 90% Participants now work better in a team.
- 3) More than 90% Participants are now aware of their Social Responsibility in being aware of Environmental problems.
- 4) More than 75% Participants have learned Resource and Time Management better.
- 5) Promethian has overcome stage-fear of more than 70% students.

Promethian has been successful, but it sure y now has bigger expectations.

ABOUT SIES

The South Indian Education Society (SIES) established in 1932 at Matunga, is a pioneer in the field of education in this metropolis. The Society has been serving the cause of education and has carved for itself a niche as a provider of quality value based education in a wide variety of fields. The Institutional Mission by our Founder is: "This Society should sincerely serve the cause of education and the educational needs of the common man of this cosmopolitan city". We seek to achieve our educational mission by focusing on the modes of inquiry which strengthens thinking skills and providing extensive field experiences to bring together theory and practices.

ABOUT GST

GST, an integral part of this well-established Community, started in the year 2002 is located in the midst of an educational hub in Navi Mumbai imparting quality based technical education, offering four year Bachelor of Engineering courses in

- Electronics & Telecommunication
- Computer Engineering
- Information Technology
- Printing & Packaging Technology
- Mechanical Engineering

The GST is approved by AICTE, DTE, affiliated to the University of Mumbai and accredited by Tata Consultancy Services and NAAC. It has been certified by ISO 9001:2008 for providing quality technical education. The institute has excellent infrastructure and state of the art fully equipped laboratories.

ABOUT MECHANICAL DEPARTMENT

The department of Mechanical Engineering was started in the year 2011 with an intake of 60. The department has SAE, ISHRAE, NCQM chapters and organizes various training programs, seminars and workshop under its banner. Our laboratories are well equipped to support the training program. The department is well associated with industries and reputed academic institutes.

DEPARTMENT VISION

To excel in the field of Mechanical Engineering to develop technological leaders for Industry, Research and society

DEPARTMENT MISSION

1. To create an environment that inspires students and staff to develop competency in Mechanical Engineering field.
2. To create and maintain the infrastructure necessary for overall development and entrepreneurial culture of students to tackle the problems of Industry and Society.

ABOUT THE WORKSHOP

In context of Industry 4.0, programming skills are must nowadays. In view of this, the STTP covers Object Oriented Programming and its applications to Mechanical Engineering field. C programming is structured programming language and is valuable for establishing the equipment user interface applications. Object oriented programming provides numerous problems and their solutions in the areas of mechanical engineering, electrical engineering, heat transfer, fluid mechanics, physics, chemistry and more.

IMPORTANT DATES

Course Duration : December 16- 21, 2019
(Timings: 10.00 am - 05.00 pm)

Registration Deadline : Nov, 30, 2019

WHO CAN APPLY

Faculty from Engineering/Polytechnic Colleges

COURSE FEE

Rs.1500/- (For ISTE member)
Rs. 2000/- for others

REGISTRATION

Registration forms can be mailed to
prashant.ambadekar@siesgst.ac.in
mohammad.ansari@siesgst.ac.in

CONTACT US

Prof. Prashant K. Ambadekar
Mobile: 9224636634
Prof. Mohammad Ali Ansari
Mobile: 9892881293

STTP fees will include registration kit, course material, breakfast and lunch.

COURSE CONTENTS

- Logic building, control and conditional statements
- Functions and pointers
- Object oriented concepts
- Function overloading, Inheritance, Polymorphism
- Application in Vibration and Thermal Analysis
- Application in Mechanical Measurement
- Application of Tinkercad software

REPORT ON ONE WEEK ISTE APPROVED STTP ON
Application of Object Oriented Programming in Mechanical Engineering
DEPARTMENT OF MECHANICAL ENGINEERING

16 DEC 2019 to 21 DEC 2019

The importance of programming language in Mechanical Engineering is growing as the latest trend is on Artificial Intelligence. The application of AI in manufacturing industry makes it compulsory to the Mechanical Engineer to develop programs that would interface with machines through sensors. In context of Industry 4.0, programming skills are must nowadays. In view of this, the STTP covers Object Oriented Programming and its applications to Mechanical Engineering field. C programming is structured programming language and is valuable for establishing the equipment user interface applications. Object oriented programming provides numerous problems and their solutions in the areas of mechanical engineering, electrical engineering, heat transfer, fluid mechanics, physics, chemistry and more.

The Department of Mechanical Engineering therefore planned the STTP on object oriented programming and was approved by AICTE-ISTE. The STTP was organised to enhance the hands-on skills of the faculty in programming, who in turn can produce learned Graduates. This was ensured by the success of participants in the test conducted at the end of STTP. A total of 13 participants from the host and other institute attended the STTP.

Day 1: 16/12/2019

The inauguration ceremony began with Guru Vandana followed by brief introduction about the STTP by Head of Mechanical Engineering Department, Dr R. S. Nehete. Dr Atul N. Kemkar Principal SIES GST, then voiced his words of guidance to the participants.

Finally, Mr. Mohammad Ali Ansari presented vote of thanks to the Management of SIES, Princippal and organisers of the STTP and participants followed by the National Anthem.

Sri Chandrasekarendra Saraswathy Vidyapuram
Sector-V, Nerul, Navi Mumbai-400706

The technical session of the day started with introduction to C language and simple programs by Prof. Suwarna Chaurse. Further the in depth program were explained by speaker and those were run on Dev C++ software by all the participants.

Day 2: 17/12/2019

Prof. Anindita Khade started the session by introduction to object oriented language. The difference in writing the syntax in C++ was explained. Programs on different applications were compiled and run by the participants. The difference in both languages was made clear through various examples and programs.

Day 3: 18/12/2019

The day three started with the revision of earlier two days and a simple program on matrix multiplication. Prof. Pranjali Thakre, explained the topics in object oriented language inheritance, Polymorphism and Exceptions. Hands on sessions developed confidence in the participants to write programs and execute those.

Day 4: 19/12/2019

After gaining the basic knowledge of programming, the day 4 was application to Mechanical Engineering. Dr. Pradip Patil conducted the sessions in which the mechanical system were analysed from programming point of view. Session on kinematic analysis was conducted to understand the change in programming during motion of the parts and mechanisms. The last session was focussed on simulating the mechanisms using object oriented language.

Day 5: 20/12/2019

Use of TinkerCAD software to build system was demonstrated by Prof. Chandan Chaudhari. The next session was on the interfacing of different sensors and actuators with the software and programming. Further session were hand on training to design various automation system.

Head of Department
Mechanical Engineering Department
S.I.E.S. Graduate School Of Technology
Sector-V, Nerul, Navi Mumbai-400 706

Day 6: 21/12/2019

Mr. Sachin K. from CAD centre demonstrated the application of object oriented programming language in Mechanical Engineering applications. A case study to design parts subjected to static loading was demonstrated. The applications of cotter joint and knuckle joint was considered in the case study. Further few examples of shaft design using C program were also demonstrated. STTP was concluded by collecting participants' feedback, giving attendance certificate to participants and vote of thanks by the STTP coordinator Mr Prashant K. Ambadekar.

Feedback from the participants was analysed and they learned to program by use of C++ language. The knowledge can be utilised in Mechanical oriented problems. Participants were enriched in knowledge on C and C++ as expressed by them in their opinion about the workshop.

Important Dates:

Registration Deadline: December 12, 2019

Course Duration: December 16 - 21 , 2019
(10 am to 5 pm)

Who can apply:

Faculty members, Industry persons, Research scholars and PG students from AICTE approved Engineering and Polytechnic Colleges.

Course Fee: Rs.2500/- (Includes certificate, course materials & tea)

Mode of payment : Demand Draft/ Cash/Cheque

Details of Demand Draft:

The Demand draft should be in favour of
“Principal, SIES Graduate School of Technology”
payable at Navi Mumbai.

Resource Persons:

Dr. Deven shah, Vice Principal, TCET, Kandivali

Dr. Bhushan Jadhav, TSEC, Bandra

Prof. Mahendra Mehta, FRCRCE, Bandra

Prof. Seema Redekar, SIES GST, Nerul

Prof. Stuti Ahuja , SIES GST, Nerul

Event Description

The Training & Placement Cell organized Campus Recruitment Training for BE 2019-20 for Career Enhancement of all students across all branches. The training was conducted by the Experts from Campus Credential.

The Campus Recruitment Training started on 17 December 2018 and was conducted in two phases for the registered students from all branches. The first phase was conducted between 17 December 2018 to 30 March 2019. The training continued from 13 July and was concluded on 20 July 2019.

In the first phase, the students underwent extensive training in Aptitude Test – Quantitative Aptitude, Logical and Verbal Reasoning tests. Also, the students were briefed on Personal Interview Techniques.. The second phase mainly comprised of Soft Skills, Communication and Group Discussions. The Soft Skills Training, along with Group Discussion practice, conducted between 13 to 20 July, helped the students understand the nuances of effective interpersonal behavior during Campus Recruitment for successful performance.

The overall feedback for the Second phase of training: 89%

Event Description

Mr Gaurav Ghelani, Regional Head – Academic Interface Programme, TCS, conducted an orientation cum interactive session for BE EXTC, CE, IT and ME on "Industry Expectations from Engineering Graduates" on 25 July 2019. He briefed the students on industry best practices and helped them prepare for prospective roles and responsibilities in TCS.

Mr Gaurav interacted with the students and provided examples from his vast experience in the IT industry. He introduced the final year students to the recent trends and the best interpersonal behaviour to make a successful career in the industry. Mr Gaurav gave valuable inputs on how to prepare resume and prepare for the interview.

Students gained relevant information to help them get the best career out of the various opportunities. The session was highly appreciated by the students.

The overall feedback for the Orientation program: 84.40%

REPORT ON FE INDUCTION PROGRAM

FE Student Induction Program conducted under IQAC – SIES GST is designed with the following motive

- making them feel comfortable
- Assimilation in the ethos and culture of the institution
- allow them to explore their academic interests and activities
- promote bonding within them
- build relations between teachers and students
- give a broader view of life, and build character
- Regular life style and professional discipline
- Overcoming weaknesses in essential skills like English

Day 1- Traditional Orientation: August 7, 2019

The five days FE induction program started with a traditional orientation on the first day wherein the students reported branch wise in the GST auditorium along with their parents. Dr. P.V. Parameshwaran , Advisor , SIESGST , Dr. Atul Kemkar The Principal, Dr. Manasi Karkare, Dean of First Year Engineering and the Head of the department of respective branches addressed the students and discussed the rules and regulations of our college. Later the students were taken to a campus tour and then to their departments for interaction with Departmental HOD, Placement Coordinator followed by an Interaction session with Class Incharge and Mentors.

DAY 2: August 8, 2019

On day 2, the students were bifurcated in to three separate groups and were scheduled different activities throughout the day. The students were asked to give a diagnostic test to check their basic Maths and English Proficiency. Later they attended a Universal Human Value session on "Interpersonal relationship" by expert speaker Ms. Vaidehi Chattrre, a corporate lawyer associated with Chinmaya trust. A resume building workshop, LinkedIn and github sessions were also organised for the students by the technical team of SIES-GST. One of the teams attended the Yoga (Expert: Ms. Shilpa), Self defence and Physical activity session too. These sessions happen on other days for all the other teams.

Day 3 Aug 9, 2019

On this day, students attended Disaster Management workshop by an expert team. They also had a computer diagnostic test along with other activities like Yoga, Self defence, Project/ Problem Solving, Physical activity too.

Day 4 Aug 10, 2019

Day 4 activities were conducted by student council team with student council orientation. They also had sessions on cultural, creative, literary, media, sports, design, robotics on that day.

Day 5 Aug 13, 2019

The last day they had speaker sessions (Block Chain : Mr. Vikash Kumar) from experts and our college Alumni (Mr. Ashok) along with other activities like physical, sports, yoga, self defence and technical games (Mr. Vivek). It ended with a feedback session of the students. The entire event was successful and students enjoyed thoroughly.

SIES GST INDUCTION PROGRAMME 2019 REPORT

A novel group of aspiring engineers with innovative minds, sanguine dispositions with millions of dreams in their minds walked in through the doors of SIES GST on 7th August '19 to commence a new chapter in their lives.

Day 1- Traditional Orientation: On Day 1, the students reported branch wise in the GST auditorium along with their parents commencing their orientation schedule in separate sessions with EXTC students reporting first, followed by the CE and PPT branches and finishing with MECH and IT. The day began with the hosts of each of the sessions introducing themselves and the institute and its essence to the engineering aspirants and their parents. This was followed by a delightful prayer song and a lamp lighting ceremony to mark the occasion of new beginnings.

The Dean and HOD of Humanities and applied-sciences, Dr. Manasi Karkare, provided an intrinsic perspective about the first year of engineering in SIES GST and all addressed the rules and regulations to be followed by the students in the course of four years. This led the way to the Training and Placement cell in charge, Ms. Seema Khan, to give insight to the students and their parents about the placement activity of the institute and how to actively prepare right from the early years for a promising recruitment in the future. This was followed by a brief informative session by the exam cell in charge about the choice-based credit system by Mumbai University.

Furthermore, all the newcomers were addressed by the student council in-charge Ms. Sumitra Padmanabhan, Student council president, Tejas Kulkarni, and all secretaries, respective HOD nominees explaining the significance and importance of the induction program introduced by AICTE and the roles, responsibilities and the duties of the student council and all the student chapters that are inclusive. They were also briefed about the vision of the institute and the efforts taken by the institute in building a prolific personality and unshakable character of the students over the 4 years. They were given an understanding into how the student council works so fluently and how it is a manifestation of a multitude of students working as a team.

An interactive session of parents with the department HODs, class in-charges and the placement coordinator were also arranged.

**PRINCIPLES AND COMMITMENTS-
PLEDGE TAKING CEREMONY**

BLESSINGS- LAMP LIGHTING CEREMONY

PRINCIPAL
S.I.E.S. GRADUATE SCHOOL OF TECHNOLOGY
 Sri Chandrasekarendra Saraswathy Vidyapuram
 Sector-V, Nerul, Navi Mumbai-400706

Day 2 and Day 3 had the wheels of the induction program in full motion, where the freshers were encouraged to look beyond the textbooks and academic outlook by their teachers and seniors and dive into a multitude of co-curricular activities planned intensively for them. The students were coaxed into interacting with their peers, seniors and faculty members to develop strong interpersonal bonds from the start. Several technical, cultural, sports and literary activities were planned with an objective to integrate a holistic perspective and an outlook among the students to give back to the society and develop a mindset to coexist in a pluralistic world in peace.

For starters, a yoga session was organized where students were actively encouraged to take part and hence, start their day off with a sense of tranquility. Following that, a self-defense session was conducted to enlighten and show the students how various forms of self-defense work. It was an interactive and learning experience, coupled with fun. Further, the CodeChef chapter of SIES GST conducted sessions for each group with an aim to spread awareness about competitive programming and about their team, in addition to inculcating the culture of coding at SIESGST. Their sessions were divided into parts to convey the ideas in a well-laid manner and included activities like writing a Pseudocode to help the students get into logic building. The session ended with a brief description of the projects in their pipeline and the flagship contests.

YOGA SESSION AND SELF-DEFENSE WORKSHOP CONDUCTED BY EXPERTS

Following in the footsteps of knowledge and awareness, a disaster management workshop was conducted for the first-year engineering aspirants where they were introduced to several ways of protecting themselves in a serious situation and ways to avoid fatal injuries/accidents.

To promote and encourage them into co-curricular ventures along with a focus on academics, a project problem solving hour was scheduled where the freshers were tested on their problem-solving skills relative to a myriad of projects. This hour was exclusively to test the students' efficiency to find creative solutions to complex issues they faced. This was followed by a computer diagnostic test- this test was to get an idea of interests and skills of each and every FE. The program was not just limited to books and academics, it was beyond it. A blend of skills, creativity and learning. While a group of freshers was engrossed in these activities, the activities planned for another batch were no less of a learning experience.

PRINCIPAL
S. I. E. S. GRADUATE SCHOOL OF TECHNOLOGY
Sri Chandrasekarendra Saraswathy Vidyapuram
Sector-V, Nerul, Navi Mumbai-400706

A résumé building workshop was conducted by the members of the literary team. Here they were introduced to ways to build an exquisite résumé and the elements to take care while doing so. The art of writing an eye-catching résumé, building references was the core crux of this workshop. Multiple ice breakers were also arranged for the freshers to open up and come forward to state their opinions unreservedly.

Also, physical activity was planned by the sports team, which included Volleyball, cricket, badminton, basketball, football, carom, chess, table tennis. The students played the games of their interests promoting the importance of health and fitness in daily life.

BEYOND THE BOOKS

Day 4: The Fourth Day of the induction was all about introducing the various teams of the Student Council and giving a glimpse of the numerous events conducted by them throughout the year.

The Literary Team, had the First Years bring out the creative writers in them, the most innovative of which were called out to the dais to enact their plot with their group. The ebullient students were indulged in collective tasks which inevitably created a tumultuous yet rhythmic atmosphere in the classroom. These sessions lead the students to present and articulate on alternate endings of famous movie scripts.

INDULGING IN CO-CURRICULAR ACTIVITIES CONDUCTED BY VARIOUS TEAMS OF THE COUNCIL

PRINCIPAL
S. I. E. S. GRADUATE SCHOOL OF TECHNOLOGY
Sri Chandrasekarendra Saraswathy Vidyapuram
Sector-V, Nerul, Navi Mumbai-400706

The Creative Team conducted Art & Craft workshops including portrait, sketching, origami, Animes and Mandala. The students got a brilliant opportunity to portray the Van Gogh's in them on the canvas as they were shown a glimpse of the creative bonanza at SIESGST.

The Sports Team spared no blushes in letting the newcomers go beyond plus ultra in the sport of their choice may it be hitting those smashes in Badminton or scoring that sky-rocketing 3 pointer in Basketball or calmly yet coolly going for the check-mate in Chess. Every sport and every individual were open to each other.

The Cultural Team articulated on the various teams that forms a part of it, such as the college's Dance Crew- Moksh, who showed off one of their energy-packed dance routines to the First Years who being as jubilant as they were didn't take long to join them in the Jamming. The enviably glamorous Fashion team presented themselves and their activities to the newcomers who were later introduced to the symphonious Music Team, Aroha, who filled the entire hall with melodious rhymes played by the very finest of our artists. The talented first years were also given a chance to sing their favorites which they took without a moment's delay.

The Technical Team introduced the students to the different domains of the technical team - Robotics, App Development, Web Dev and Game Dev. The TML hit VR game was played and the Drone was flown around to show how high the bar had been set by the team for the upcoming years. The college website portal and the Companion application were all flaunted by the Tech Team as they bedazzled the students with technological marvels that they would be a part of in the near future.

The Design Team and the Media Team displayed their best works through the breathtaking movies and posters made by them. The Design Team gave hands-on experience to the students in the Software used for UX/UI design and explore the various color modes while the Media Team explicitly taught the basics of photography.

The SAE Student Chapter Team Turbocrafters introduced the advent of creating an ATV vehicle to the First Years which raised the eyebrows of every automobile lover in the room. The students were given a brief idea about the various activities under the Chapter and the hard work behind the success achieved in the past years by Team Turbocrafters.

PRINCIPAL
S.I.E.S. GRADUATE SCHOOL OF TECHNOLOGY
Sri Chandrasekarendra Saraswathy Vidyapuram
Sector-V, Nerul, Navi Mumbai-400705

Day 5: A seminar on Blockchain, as a concept and how it has risen to the technological and economic paradigm was conducted. The ways it has manifested itself in the corporate world and its scope in the future and the contribution of engineers in it was also a topic of discussion. The FEs left with an ardent curiosity and a keen interest towards the subject.

A SEMINAR ON BLOCKCHAIN BY MR. VIKASH KUMAR

The entire motive and incentive behind the induction program proposed by AICTE for the FEs was to take a positive step towards nurturing students who are not just good engineers but better members of the society, better citizens of the country and better human beings in totality. The whole program was a successful attempt towards the embodiment of ethics, values and principles along with knowledge and creativity.

Dear Sir / Madam

Greetings from Tata Consultancy Services Ltd.

This email is with regards to **One Day Faculty Development Programme** scheduled at TCS Yantra Park, Thane Office on **Monday 19th August 2019 9am to 5.30pm**

We would request you to nominate **5 Faculties (From Any Stream / Specialization)** from your Institute to attend the aforementioned Faculty Development Programme on 19th August at TCS Thane Office from 9am to 5.30pm. **Please share the nominations in below mentioned format by Tuesday, 6th August 6pm IST.**

Sr.No	Institute Name	Faculty Name	Faculty Mobile Number	Faculty Email Address	Stream / Specialization
1					
2					
3					
4					
5					

As of now, following sessions have been planned. However there might be slight variation in this schedule depending on the expert availability.

1. Session on Experiential Learning and how it can be integrated into Curriculum.
2. Session on Importance of Automation in IT Sector.
3. Session on SAP as an ERP & also on SAP HANA - In Memory Relational Database Management System.
4. Session on Ethics in Academia & Business - Activity Oriented Workshop

12:06 PM
1/9/2021

Workshop on Python Programming
(31st August 2019)

Event Information

Event Type:SDP

Event title: Workshop on Python

Resource Person: Ms. Masooda Modak

Event date: On: 31st August 2019

Organized for: SE Student

Organized by: CSI Council

Target audience (branch & nos.): CE students , 10

Attachments: 1. Photographs (in JPEG/PNG)

2. Attendance report

3. Feedback

PRINCIPAL
S.I.E.S. GRADUATE SCHOOL OF TECHNOLOGY
Sri Chandrasekarendra Saraswati Vidyapuram
Sector 5, Nerul, Navimumbai - 400706

Impact Analysis: Students applied computational and logical skills using basic engineering knowledge using python for solving problems so mapped with PO1,PO2, PO5 and PSO1 .

REGISTRATION FORM

AICTE-ISTE Approved One Week Short Term Training program On

“Cloud Computing and High Performance Computing”

December 09th to 14th, 2019.

Name: _____

Designation: _____

Department: _____

College: _____

Address: _____

Phone: _____

Email: _____

ISTE Membership Number: _____

Signature of Participant

Signature of Principal

Important Dates:

Registration Deadline: 5th December 2019

Course Duration : 09th Dec. to 14th Dec., 2019.
(9.30 am to 4.30 pm)

Who can apply:

Faculties, Research scholars and PG students from AICTE approved Engineering and Polytechnics Colleges.

Course Fee: (Includes certificate & high tea)

Rs.2000/- For ISTE Member

Rs.2500/- For non ISTE Member

Speakers:

Dr. V.B. Nikam, Professor, VJTI Mumbai

Dr. Rizwana Shaikh,

Associate Professor, SIES GST, Nerul

Dr. Bhushan Jadhav,

Assistant Professor, TSEC, Mumbai.

Prof. Preeti Godabole,

Assistant Professor SIES GST, Nerul

ABOUT SIES

The South Indian Education Society (SIES) established in 1932 at Matunga is a pioneer in the field of education in this metropolis. The Society has been serving the cause of education and has carved for itself a niche as a provider of quality value based education from Nursery to Doctoral level in a wide variety of fields. The Institutional Mission by our Founders: "This Society should sincerely serve the cause of education and the educational needs of the common man of this cosmopolitan city".

About SIES Graduate School of Technology

SIES Graduate School of Technology, an integral part of this well-established Community, started in the year 2002, is located in the list of an educational hub in Navi Mumbai imparting quality technical education, offering four year Bachelor of Engineering courses in

- Electronics and Telecommunication Engineering
- Computer Engineering
- Information Technology
- Printing & Packaging Technology
- Mechanical Engineering

The institute is approved by the All India Council for Technical Education New Delhi and affiliated to the University of Mumbai and accredited by the Tata Consultancy Service Limited.

Department of Computer Engineering

The Department of Computer Engineering came into existence in 2002, and at present operational with an intake of 90 . It has progressed rapidly, to be regarded, as one of the premiere departments with excellent infrastructure. It has dedicated, highly qualified faculty members with excellent infrastructure and state of the art laboratories, in order to give the students a holistic and pragmatic view of the present scenario in Computer Engineering and IT industry.

The Course Objectives

- To learn various service models and deployment models
In cloud computing and impliment private cloud
- To apply parallel programming to run advanced application in reliable and efficient manner

The Course Contents

- Different types of virtualizations, Host and bare metal hypervisors, Xen server
- Implementation of Infrastructure as a Service using OpenStack.
- Installation of Storage as Service using Own Cloud
- Implementation of Platform As a Service using Google App engine.
- Identity managemement and data security using openstack and own cloud
- Introduction to parallel Programming
- Parallel Programming using OpenMP MPI
- Fundamentals of parallel programming using GPU

The Course Outcome

Participants will be able to,

- To implemet various service delivery models
- To apply security and Identity on IaaS and PaaS cloud
- To understand the concept and importance of HPC .
- To apply parallel progr. using OpenMP , MPI and GPU .

AICTE-ISTE approved STTP on “Cloud Computing and High Performance Computing”

Organized by

Department of Computer Engineering

Short Term Training Program report:

The department of Computer Engineering of SIES Graduate School of Technology, Nerul, Navi Mumbai has successfully organized and conducted one week AICTE-ISTE approved Self-Financed Short term training program on “Cloud Computing and High Performance Computing” from 09/12/2019 to 14/12/2019.

Sanction Letter No:ISTE/Proceedings/STTP-SF/MAH-092/2019-20

OBJECTIVES AND GOALS: The main objective of this short term training program was to give insight to the participants in the ever growing field of cloud and HPC. It is aimed to provide platform to communicate with industry experts to understand current ongoing practices followed in industry.

The goal is to:

To learn various service models and deployment models in cloud computing and implement private cloud and to apply parallel programming to run advanced application in reliable and efficient manner

OUTCOMES:

As a result of successful completion of this workshop, participants will be able to

- To implement various service delivery models
- To apply security and Identity on IaaS and PaaS cloud
- To understand the concept and importance of HPC.
- To apply parallel programming using OpenMP and MPI.

 Sector-V, Nerul, Navi Mumbai - 400706

SIES Graduate School of Technology, Nerul, Navi Mumbai
AICTE-ISTE approved STTP on “Cloud Computing and High Performance Computing”
Organized by
Department of Computer Engineering

SIGNIFICANCE:

- Programs will be jointly certified by ISTE and AICTE.
- Program is designed as refresher program in Cloud computing and HPC.

Attendees:

Faculty members from Computer Engineering department of SIES Graduate School of Technology participated in the training program. Total 16 participants have attended the program. List is attached.

The program started with inauguration and key note address by Dr. Atul Kemkar, Principal SIES graduate school of Technology.

Day 1:

The resource person was Dr. Bhushan Jadhav Asst. Prof. TSEC Mumbai. He gave us an overview of Cloud Computing in the beginning. The session is followed with introduction to different tools for cloud computing with hands on.

Total 17 participants attended the STTP program from dept. of computer engg SIES GST.

Day 2:

The resource person was Dr. Bhushan Jadhav Asst. Prof. TSEC Mumbai. He has covered topics like virtualization, Hypervisor, AWS, openStack, installation of XenServer and XenCenter.

Day 3:

The resource person for third day was Dr. Rizwana Shaikh, Associate Professor, Co-coordinator of the program. She introduced participants to ownCloud for management of documents within an organization.

Day 4:

On the fourth day Ms. Preeti Godbole Asst. Prof. introduced participants to the concepts of parallel computing and emphasize the need of high performance computing. Concepts of OpenMP were briefed and hand-on session was conducted on OpenMP.

A handwritten signature in blue ink, appearing to be 'A. Kemkar', written over a horizontal line.

Event Description

EXTC Department of SIES GST and IEEE MTTs Chapter conducted Short Term Training Program (STTP) on "Antennas and RF Components Design, Fabrication and Testing", approved by AICTE-ISTE and IEEE Bombay Section MTT-S Chapter from Monday, 16th December 2019 to Saturday, 21st December, 2019 between 09:30 am to 4:30 pm conducted under IQAC at SIES Graduate School of Technology, Nerul.

The Course Objectives:

- To learn design constraints of RF components
- To gain new insights in various antenna designs and RF Design subject of semester VIII, EXTC engineering.

The Course Contents:

- RF Design constraints
- Design of various antennas, using IE3D Simulator
- Design of various RF components, using IE3D Simulator
- Design of Amplifier, using open source simulator.
- Reflection and Dispersion phase analysis of periodic structures.
- EMI and EMC in RF design
- RF MEMS, Fabrication and Testing of RF Components

Speakers:

- Dr. Uday Pandit, Professor, SFIT, Borivali.
- Dr. C. D. Rawat, Professor, VESIT, Sion.
- Dr. R. K. Gupta, Professor, TPCE, Nerul.
- Dr. Vinit Dongre, Professor, TCET, Kandivali.
- Dr. Promod Bhavarthe, Professor, PVPPCOE, Sion.
- Prof. A. S. Kurhekar, Professor, DMCE, Airoli.
- Dr. S. D. Jagtap, Professor, SIES GST, Nerul.

Day1: Monday, 16th Dec. 2019

Initially, **Asst. Prof. Shishir Jagtap**, from SIES Graduate School of Technology, Nerul, gave participants an insight on "transmission line theory", its types and applications. The effect of change in length of the transmission line on its input impedance is discussed. Also, the effect of change in load impedance, on input impedance of the transmission line is discussed. The reflection coefficient, voltage standing wave ratio and return loss parameters, their range, ideal values and practically acceptable values are discussed. The introduction and significance of "Scattering parameter" is discussed. Later, a quarter wave transformer based impedance matching network is designed analytically and practically, using method of moment based IE3D simulation software. Thereafter, **Dr. Vinit Dongre**, from Thakur College of Engineering and Technology, Kandivali, thrown light on fundamentals of electromagnetics. The fundamentals of coordinate

S. I. E. S. GRADUATE SCHOOL OF TECHNOLOGY
Sri Chandrasekarendra Saraswathy Vidyapuram
Sector - V, Nerul, Navi Mumbai - 400706

designed in IE3D simulator.

Day5: Friday, 20th Dec. 2019

Initially, **Dr. C. D. Rawat**, from Vivekananda Education Society's Institute of Technology, Nerul, Mumbai, provided participants an insight on the "EMI and EMC in RF Design". The importance of launching of a product is discussed. The EMI and EMC testing is discussed by his colleague, from Automate Process Control. Later, **Dr. S. S. Patil**, from SIES Graduate School of Technology, Borivali, had thrown lights on various simulation tools and open source software is discussed. Thereafter, **Dr. A. S. Kurhekar**, from Datta Meghe College of Engineering, Nerul, had thrown lights on antenna design and how polarization diversity is fabricated.

Day6: Saturday, 21st Dec. 2019

Prof. A. S. Kurhekar, from Datta Meghe College of Engineering, Nerul, had thrown lights on design of a Directional Coupler, using ICA. The design is carried out, followed by online test and feedback of the design.

At the end, attendees learned a lot about Antennas and RF Components Design, Fabrication and Testing.

3. Impact Analysis:

Participants are able,

- To explain the design constraints of RF components.
- To design linearly and circularly polarized antennas.
- To design high gain and wideband antennas.
- To design Compact MIMO antenna.
- To design power divider, coupler, hybrid ring etc.
- To design single, dual and tri and UWB monopole antenna.
- To explain periodic structures, RF MEMS and RF Design
- To design, fabricate and test RF components.

- 2 ISTE Life membership is necessary to attend SF programmes. However, If any participant is not having life membership he/she may take membership of ISTE before the starting of the course and apply by paying the fee to the course coordinator at the spot before the commencement of the programme. The Life Membership fee Rs. 3540/- (Incl. 18% GST) to be paid by DD in favour of ISTE New Delhi.
- 3 This will be a full-time program and duration of 1 week/2 weeks/4 weeks.
- 4 A processing and operational charges @Rs.354/- (Incl. 18% GST)per participants including certificate printing and handling and postage charges is to be paid to ISTE Headquarters after the program along with the final report as mentioned in item 6 below.
- 5 The registration fee of the participants may be fixed by the host institution.
- 6 Within 15 days after completion of the Programme the final report including list of participants (with their ISTE Membership Number or filled up application forms/list of non-members with Life Membership fee), detailed schedule of the programme with dates, copy of the course notes, list of resource persons invited with full address, contact details, topics, minimum five photographs and a video CD of selected sessions must be sent to ISTE Headquarters, Delhi along with a combined DD @Rs354/- per participant as mentioned above and membership fee for non-members, if any, in favour of "ISTE, New Delhi".
- 7 As per the guidelines of AICTE, a test will be conducted by the institute at the end of the programme & copy of question paper, result sheet of the successful participants is to be submitted to ISTE. Certificates will be issued to those participants only who have attended the programme and have qualified in the test.
- 8 The EC/SMC Member of ISTE preferably from nearby area may be invited during the STTP.
- 9 Participation Certificates will be issued jointly by ISTE Hqs. & AICTE New Delhi to the participants. Course Coordinator to kindly ensure correctness of the names in the list/soft

TCS Faculty Development Programme - Monday, 19th August 2019 - Thank you Note

 Gaurav Ghelani
Tue 20-08-2019 12:50

Dear All

I would like to Thank all of you for your enthusiastic participation in Faculty Development Programme organized at TCS Yantra Park on 19th August 2019.

I am sure that you would received lot of take ways and very good learning experience from the sessions that were conducted by our experts.
Please consider our apologies in case if there had been any challenges in our hospitality.

It will be appreciated if you can take out some time and share your valuable feedback over this email.

Looking forward for more such collaboration.

Please note - We have found 2 Umbrellas in our Training Room. One of them has been identified however we are not able to identify the other one. It is of Pierre Cardin brand.

Thanks & Regards

workshop at Indian School of Design and Innovation

LEENA LADGE <ladge.leena@siesgst.ac.in>
To: office superintendent <office_supt@siesgst.ac.in>

Fri, Sep 21, 2018 at 5:37 PM

Dear Sir/Madam,

IETE Students' Forum in collaboration with EDC of SIESGST, is conducting a Data Science and Design Thinking workshop at Indian School of Design and Innovation (India Bulls, Lower Parel), This workshop is planned for BE students of all branches on September 25, 2018, The schedule for the same is as below.

09:00AM	Reporting @ ISME
10:00AM to 10:30AM	4 School Presentation by Meena Desai
10:30AM to 11:15AM	Session on Communication Excellence by Prof Anjana V
11:15AM to 12:00PM	Session on Design Thinking by Prof Shamit S
12:00PM to 12:45PM	Session on Data Science - Career & Opportunities by Prof Aditya K
12:45PM to 01:15PM	Campus tour & Departure

We believe this program will give a great exposure to the world of Data Science and also may deliver a chance to expand their roots of design skills.

Participation to the workshop is free of cost and participants will be provided with refreshments, on day and certificates for attending the program.

This workshop is compulsory for all BE students. I request you to kindly depute 2 faculty members from your department (EXTC- 04, CE -03) for better coordination. Students and faculty members will report directly at given venue and after the workshop would leave for home.

Following information is required about the students:-
Roll Number, Name, Email ID, contact number and Branch

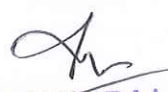

I request for your kind cooperation.

Thanks & Regards,
Ms. Leena V Lagde

Event Description

The IETE Students' Forum in collaboration with the Entrepreneurship Development Cell of SIES Graduate School of Technology organized a Boot Camp on Design Thinking and Data Science at the Indian School of Management and Entrepreneurship, One India Bulls, Parel. In its second iteration, this boot camp was aimed at providing students with new insights and career opportunities after their Engineering. This boot camp was attended by 118 students from BE, across all years of engineering, 7 volunteers from TE-IT and 11 faculty members.

The students assembled at the venue i.e. One India Bulls Center at 10 AM. After refreshments were distributed to them, the boot camp began with an introductory session by Prof. Utsav Shroff. This session included career guidance and a peek into the various courses offered at ISDI and ISME, Mumbai. The introductory session was followed by the session on Design Thinking by Prof. Amit Kundal, ISDI Mumbai. In this session, he introduced the students to the concept of Design Thinking and how it works. In his session, he conducted the first group activity, which was to design a car and a chair. Through this, he emphasized the importance of innovation and thinking out-of-the-box, and the need to abandon conventional thinking. He gave examples of the various products developed at ISDI such as Bridge (a braille writer for the blind), Freelevator (a multidirectional elevator), the Aalto Explorer (an underwater remote-controlled explorer). He concluded his session by showing the attendees short videos on the said products, which highlighted the thinking process, the building and designing stages and the application of the final product.

After a short break, the session on Data Science began, which was conducted by Prof. Anshul Gupta. He began by explaining the concept of Data and its importance. He highlighted and spoke on key points such as the importance of data and automation. He engaged the attendees through various team activities such as Virtual Shopping and Marketing for 'Perk' to teach various concepts such as frequent pattern mining etc. The boot camp concluded with a short photo session and distribution of lunch boxes to all the attendees.

5. Impact Analysis:

The boot camp was very useful for the Final Year students as it taught them various life skills like marketing, innovating in a unique way and other skills which are very important for them. Throughout the seminar, the students were keenly interested and curious to know more about basic life skills and Data Analytics concepts. Described the process of analyzing data and how to manage that process also the iterative nature of data analysis and the role of stating a sharp question, exploratory data analysis, inference, formal statistical modeling, interpretation, and communication. In addition, it was also focused on courses that would help to get rapid speed on the process of data analysis and how it can be managed to make this as convenient as possible. The bootcamp was reviewed positively by the speakers and the students.
