### **Overseas Student Health Cover**

It is a condition of your student visa that you maintain Overseas Student Health Cover (**OSHC**) for the duration of your studies. OSHC needs to be arranged around the same time you accept your unconditional offer to study. The University can arrange OSHC on your behalf, or you can purchase OSHC from one of the following current Australian Government-approved providers:

- Australian Health Management
- BUPA Australia
- Medibank Private
- Allianz OSHC
- nib OSHC
- CBHS International Health

Further information on OSHC can be found at [immi.homeaffairs.gov.au/visas/getting-a-visa/visa-listing/student-500#Eligibility](https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-listing/student-500#Eligibility).

The University has a preferred provider agreement with Allianz Global Assistance (OSHC) (**Allianz**), under which the University can arrange OSHC on your behalf. Under this agreement, the University receives a commission based on a percentage of the premium paid for a policy, and other benefits from Allianz, for facilitating OSHC for international students. The commission and other benefits will be used to support initiatives that improve the international student experience at the University.

If you elect to have the University arrange your OSHC on your behalf, you will be required to pay for your OSHC at the time of accepting your unconditional offer. You can find further information on arranging OSHC through the University at [sydney.edu.au/study/finances-fees-costs/living-costs/health-insurance](https://sydney.edu.au/study/finances-fees-costs/living-costs/health-insurance).

If you choose to obtain OSHC with another provider, you must provide evidence of your OSHC when applying for a student visa.

Please note that the OSHC amount quoted above is an indicative amount based on coverage of a single person under the University's preferred provider agreement with Allianz. This amount may change if you elect to amend the type of cover and a final quote will be calculated when you accept your unconditional offer.

### **English language requirements for admission**

The University requires a specified level of English language competency for each course of study. The levels required for your courses are set out in the University's English language requirements at: [sydney.edu.au/study/admissions/apply/admission-criteria/english-language-requirements](https://sydney.edu.au/study/admissions/apply/admission-criteria/english-language-requirements). If you have not already done so, it is a standing condition of your offer that you meet these requirements for your first course prior to commencement.

## Training and placements

Based on the current underlying Course structure, students in the Course are not required to undertake compulsory work-based training, placements or other training. However, if you later select to enrol in particular units of study or streams then you may be required to do so. If you select a particular stream or units of study it is important for you to read the information and understand any specific enrolment and/or professional registration requirements. Further information can be found here: [sydney.edu.au/students/course-required-placements](https://sydney.edu.au/students/course-required-placements).

## Offer conditions

This offer is conditional on (i) you meeting the conditions set out below, and (ii) there being sufficient places available in the year in which you have applied for course commencement.

To finalise the assessment of your application, and before we are able to provide you with an unconditional offer to this course (if you are eligible), you must meet the following conditions, and provide satisfactory supporting documentation that you have met the conditions:

- You must successfully complete your current study with the minimum academic requirements for entry to this course. If you do not meet this requirement you may be considered for entry to a lower level course, depending on your area of study. You must provide your final official academic transcript and proof that you have completed your study to finalise your offer. The academic transcript should show all the subjects you have studied and the marks/grades you have achieved. All pages of your official transcripts must be uploaded, including the legend (or grading system). Proof of completion or a graduation certificate should indicate the date of completion, the final result and where relevant, the discipline in which you specialised. All documents not issued in English also require an official English translation

Please also refer to the University's Find a Course website: [sydney.edu.au/courses](https://sydney.edu.au/courses) for assumed knowledge requirements that may apply to your course.

Please also refer to the University's Study Dates website at [sydney.edu.au/study/study-dates](https://sydney.edu.au/study/study-dates) for current details of key dates including planned holiday breaks.

Provided that you have successfully met the conditions of your offer, the University will send you the unconditional offer, which you will be asked to accept. As part of your acceptance of the unconditional offer, you must make the initial payment set out in the offer.

The University will send you necessary documents to allow you to apply for your Australian student visa once payment has been made.

If you do not meet the conditions of this conditional offer, and fail to provide the requested documentation, by the 'Application Closing Date' listed for your course on the University's 'Find a course website' at: [sydney.edu.au/courses](https://sydney.edu.au/courses), this offer will automatically lapse.

## Supporting documents

The University accepts scanned documents submitted online in support of applications for admission to courses. All supporting documents must be true and complete records. You should be prepared to provide original documents or original certified copies of supporting documents upon request at any time.

Documents submitted in a language other than English must be accompanied by a complete English translation. The University accepts translations to English made by an accredited translator with a government body, the Registrar of the issuing institution or, for international applicants, registered University education Agents who are designated translators.

Please note that detailed checking of supporting documents is an inherent element of our admissions process and may involve contacting the original issuing authority, relevant tertiary admissions centre, organisation, or individual, as required, to verify documents. A failure to provide documents on request, or the discovery of either fraudulent documents or a misrepresentation of true circumstances in association with your application, may lead to the rejection of your application for admission, the withdrawal of your offer, or the cancellation of your enrolment.

## Important information about fees

The tuition fee set out in this conditional offer is indicative only. The exact tuition fee that you pay will depend on the calendar year in which you undertake your study in the Course.

### Tuition fees

The tuition fee set out in this conditional offer is based on a full-time student enrolment load of 48 credit points per year (1.0 Equivalent Full Time Study Load). If your study load is more or less than 1.0 EFTSL, your tuition fee will differ from the indicative fee set out in this conditional offer.

**Tuition fees are subject to annual review by the University and will increase each calendar year of your study, effective at the start of each calendar year.**

The exact tuition fees that you will pay for your specific enrolment in any given semester (or research period) will be set out in your 'Student Financial Statement'. This Statement will be generated, and available within 24 hours in your Sydney Student portal, once you have submitted your enrolment selections prior to the relevant University census date.

Please note that sanctions for unpaid student debts apply and are set out in the '*Student Debtor Sanctions Policy 2014*' (as may be amended or replaced from time to time) which can be found at: [sydney.edu.au/policies](http://sydney.edu.au/policies).

### Student Services and Amenities Fee (not included in the tuition fees above)

The Student Services and Amenities fee (**SSA Fee**) was introduced by the Australian Government to increase student support and facilities at Australian universities. Please note that the SSA Fee listed in this conditional offer is indicative of the year stated, and based on a full-time student enrolment load of 48 credit points per year (1.0 Equivalent Full Time Study Load). You will be required to pay a SSA Fee each semester for your study in a course. The SSA Fee is subject to annual review by the University,

and will increase each year of your period of study (subject to a Government specified cap on indexation), effective at the start of each calendar year. For further information about the SSA Fee, due dates for payment, and payment deferral for eligible students, please consult the University's webpage at: [sydney.edu.au/students/ssaf](http://sydney.edu.au/students/ssaf).

### **Additional Expenses**

Please note that for some courses there are additional expenses in addition to the course fee. Some of these additional costs are significant, for example, course-specific materials, tools, protective clothing and equipment. Please consult the University's web page for more information: [sydney.edu.au/students/materials-equipment](http://sydney.edu.au/students/materials-equipment).

### **Method of Payment**

There are a number of ways that you can pay the fees that apply to your study. Please note that a surcharge of 1.53% will apply for payments made by Visa, MasterCard, American Express or JCB. The surcharge is subject to review and may change. Information about payment methods and the surcharge is set out at: [sydney.edu.au/students/paying-fees](http://sydney.edu.au/students/paying-fees).

### **Recognition of Prior Learning**

Your previous studies may allow you to reduce the length of your studies in this Course, depending on their relevance. The University's policies are available at the Policy Register at: [sydney.edu.au/policies](http://sydney.edu.au/policies). You should consult with the [Student Centre](#) for more specific information about your eligibility and apply for credit via your Student Portal.

### **Changes to your student status**

The University's '*Coursework Policy 2014*' (which can be found at: [sydney.edu.au/policies](http://sydney.edu.au/policies)) provides information about residency changes and how any changes will affect your offer of admission and fee liability. The Policy may be amended or replaced from time to time, and you must consult this Policy for up-to-date information about changes to student status.

### **University Rules and Policies**

As part of agreeing to the terms and conditions of this conditional offer, you agree to comply with the University's rules and policies that exist from time to time. The University's rules and policies are listed on the University's Policy Register at: [sydney.edu.au/policies](http://sydney.edu.au/policies). The University may amend these rules and policies from time to time, and you must consult the University's Policy Register for the most up-to-date information.

To the extent that there is any inconsistency with the terms of this conditional offer, and the rules and policies of the University, the rules and policies prevail.

If you have queries about your conditional offer, please see our information online at: [sydney.edu.au/study/find-a-course/postgraduate-study/postgraduate-courses](http://sydney.edu.au/study/find-a-course/postgraduate-study/postgraduate-courses) or contact our admissions team by email at [international.admissions@sydney.edu.au](mailto:international.admissions@sydney.edu.au).

Dear Siddhanth,

Congratulations! I am pleased to inform you that you have been admitted as a student to the Master of Science program in Computer Science at the University of Illinois at Chicago (UIC) beginning in the Fall 2019 term.

The Graduate College requires that each degree student work with a department advisor in selecting courses. Details on advising will be communicated to you by the department, if they have not already done so. Also available for students admitted to the University is my.UIC, a portal designed to assist students with the admission to registration process. Please go to <http://go.uic.edu/gradadmit> to access my.UIC, if you have not already done so. We encourage you to visit the portal regularly to check your messages and obtain new information.

Newly enrolled students are automatically enrolled in CampusCare, the University-sponsored health benefits program, when assessed the Student Health Insurance Fee along with the tuition. Consult the CampusCare website at <http://campuscare.uic.edu> to obtain information about the program including permissible reasons to have it waived.

You have been classified as an international, nonresident student of Illinois. This status is for a person who is a citizen or permanent alien of a country other than the United States, who expects to return to a residence outside the United States, and either is, or proposes to be, a temporary alien in the United States for educational purposes only. As an international student you are required to see an advisor in the Office of International Services (OIS) at UIC to verify your current immigration status upon your arrival at UIC. Failure to do so may jeopardize your stay in the US. Any questions or concerns regarding your immigration status should be addressed to OIS.

Your admission is conditional upon receipt of certain required documents. If you are currently completing your bachelor's degree, you will need to submit a final, official transcript. If your admission is based on unofficial documents, we will need to receive official documents. The required documents that must be submitted are listed on your application status page. See our Admitted Student Guide at <http://go.uic.edu/gradadmit> for submission details. For specific questions about your admissions status or required documents, consult the Office of Admissions at (312) 996-4350.

Admission to the Graduate College is for a specific term. However, if you wish to defer admission, it is possible that you may do so for up to one year without reapplying. Please contact your department with any questions concerning deferral.

Again, congratulations! We look forward to providing you with an outstanding education.

Dear Rammya Arunachalam,

Congratulations! It is my pleasure to offer you admission to the MS program in Engineering Sciences (Robotics) at the State University of New York at Buffalo for Fall 2019.

At the University at Buffalo (UB), you will join a community of scholars and leaders — students, faculty and alumni — whose successes in the state and around the globe have had profound effects on our world. You were chosen from one of the largest and most competitive applicant pools in the institution's history for this opportunity. We are confident you will contribute to the legacy of innovation and leadership that has defined UB as a premier public research institution, renowned for its academic reputation and creative activity.

You will soon receive additional details from the Office of International Admissions regarding your I-20 welcome packet and the next steps in the international enrollment process. This packet will include instructions regarding submitting your final transcripts, proof of completion of a baccalaureate degree and any other documents that may be required. Also included in your I-20 welcome packet will be a bright yellow sheet of paper titled "Admission Status" with instructions about what documents you must bring and present when you arrive on campus. Please bring the requested documents in person, to the Office of International Admissions, 115 Capen Hall, North Campus. **Please do not mail any of the requested documents to the Office of International Admissions unless specifically requested to do so.** All offers of admission are considered provisional until official transcripts with proof of a completed baccalaureate degree from a recognized institution are received. Without such proof, you may not be able to register for classes during the second semester and completed graduate coursework during your first semester may not count toward the degree. Be sure to visit our [Next Steps for New Students webpage](#), for more important information for incoming students.

19-27

Additionally, in accordance with New York State Public Health Law, UB requires that all students (undergraduate, graduate, professional) born on or after Jan. 1, 1957, provide proof of immunity against measles, mumps and rubella. New York State also requires that all students receive information about meningococcal disease and have made an informed decision about whether or not to receive immunization against meningococcal disease. UB students will not be allowed to register for classes until they have fulfilled these requirements. [Click here to learn more about the health requirements.](#)

Once again, congratulations on your acceptance to the MS program in Engineering Sciences (Robotics) and welcome to the University at Buffalo.

Sincerely,

Dr. Graham Hammill  
Vice Provost for Graduate Education and  
Dean of the Graduate School

*Please note that all offers of admission are considered provisional until official transcripts with proof of a completed bachelor's degree from a recognized institution are received. Please do not mail any requested documents to International Admissions unless specifically requested to do so.*

Congratulations! It is my pleasure to offer you admission into the Computer Science program at Stevens Institute of Technology.

Since 1870, Stevens has welcomed students who combine a passion for learning with a desire to apply their training to improve the world around them. Upon thorough review of your impressive credentials, it's clear you would be an excellent fit for our master's programs, which prepare students for leadership roles with innovative organizations around the globe.

A student with your talents and aspirations likely has received multiple letters similar to this one, but we're confident you'll find Stevens is best aligned with your future. Our classrooms are windows into tomorrow — we emphasize innovative instruction from leading faculty members, we create high-tech laboratories that make cutting-edge research possible, and we leverage our proximity to industry to bring corporate leaders and their perspectives to your learning. Our network of alumni and industry partners helps graduate students find internships, understand where their field is going and learn what it takes to manage a bustling enterprise. And our students enjoy pursuing their studies in one of the best locations in the world — our picturesque campus in lively Hoboken is just minutes from New York City by train or ferry.

At Stevens, we call ourselves "The Innovation University." That's partly because of the programs we offer, the faculty we recruit and our legacy of technological vision — and it's also because of students like you, Vedadnya Vishwas, who possess the vision and passion to take the top-flight educational experience you'll receive here and apply it to the challenges facing the world. Again, congratulations on your achievement, and I look forward to welcoming you to our campus shortly.

Dear Rohith:

Congratulations! I am pleased to notify you of your acceptance into the Mechanical Engineering MS program for Fall 2020.

You are being admitted into a coursework, non-thesis masters degree program. Please be advised that funding is not available from the department as a GTA. GRA decisions are made by individual faculty members but none have expressed a need for GRAs at this time. See FAQ <http://www.mtu.edu/mechanical/graduate/advising/faqs/index.html> and Graduate Handbook at <http://www.mtu.edu/mechanical/graduate/advising/handbook/index.html>

All graduate students are required to complete basic and advanced training in the area of responsible conduct for research. You may fulfill the basic training requirement by attending Fall orientation on 26-AUG-2020 or by completing an online training course.

If you have not already provided our office with your final transcript(s) / diploma(s) indicating proof of previous degree(s) awarded, and a certified English copy thereof, please make sure they have been sent by your previous institution(s) as soon as they are available.

Research and teaching assistantships are awarded by your department and questions regarding this form of aid should be directed to them. Resources to assist you prior to your arrival on campus can be found in the Enrollment Checklist on your personalized MyMichiganTech (<https://www.mymichigantech.mtu.edu>) and on our additional resources website for incoming students (<http://www.mtu.edu/gradschool/resources-for/students/admitted/on-campus/international/>).

Unless your program requires you to arrive at an earlier date, plan to be on campus on or before 24-AUG-2020, which is one week before classes begin. Please report to the International Programs and Services Office (IPS) immediately upon your arrival to campus. An I-20 or DS-2019, if not enclosed, will be sent to you separately. Notify our office as soon as possible if you have had any changes in your mailing address or proposed term of admission.

We look forward to welcoming you to the Michigan Tech Graduate School and wish you continued success in your academic career.

Sincerely,

Jacque Smith

### Important Information

#### Living Expenses

As well as planning your tuition fees, you will also need to ensure that you have sufficient funds to cover your living expenses (accommodation, food, travel, books, entertainment etc.). These additional costs are estimated at €10000-12000 per academic year but will vary depending on your personal lifestyle. Please note that for your initial registration with the immigration authorities in Ireland, you must demonstrate that you have €3,000 in your bank account to support your living expenses.

#### English Language

If English is not your native language, you must show that your English level is of a suitable standard. English Language Entry Requirements are detailed per programme on the College website: [www.griffith.ie](http://www.griffith.ie). These requirements are in respect of internationally recognised English language tests. Students who have not achieved a sufficient score in an internationally recognised English language test will be required to attend the Oxford Placement Test in Griffith College prior to the commencement of their course. Details of this test can be found at [www.oxfordenglishtesting.com](http://www.oxfordenglishtesting.com). Students whose level of English does not meet the required standard will then be redirected onto a General English course in GC. The charges for these classes are separate from academic programme fees (and other fees already secured, if applicable).

#### Fees

In order to secure your place on your course, **you must forward your fees to the college as soon as possible**. The Total Tuition Fee includes Medical Health Insurance, which will be activated on your arrival in Ireland. The Total Tuition Fee must be paid in full and in advance.

If for any reason you are unable to commence your course in the above intake and wish to defer to the next intake of your course, you will then be liable for the course fees pertaining to the next intake. Deferrals will only be considered in exceptional circumstances (visa delays etc.) and at the discretion of the Course Director.

Students classified for fee purposes as Non-EU on application shall retain that fee status and continue to pay Non-EU fees for the duration of their course following admission, whether studying full-time or part-time and irrespective of holding a work permit or claiming EU residency subsequently.

Programme fees are not refundable irrespective of the circumstances, except for valid and documented visa refusals. Refund requests must be made in advance of programme commencement. **Requests made after programme commencement cannot be facilitated.**

Please note that the tuition fee for your programme does not include the cost of course materials. The cost of materials differ for each course and each year. Please contact the admissions office for an estimate of the cost of the materials for your course and year of choice.

Programme fees for non-EU students resident outside of Ireland at the time of application shall be made payable to Griffith College Student Advisory Services Ltd, and shall incorporate payment by students for student advisory services to be supplied by Griffith College Student Advisory Services Ltd, and education to be provided by Griffith College. The Griffith College JV shall make payment to each entity in proportion to the value of the services rendered by each to the non-EU student.

The decision to offer a place in Griffith College shall be made by Griffith College Academic staff in Ireland and not by any persons providing student advisory services to the student in that student's country of residence.

#### Changing Course:

You will NOT be permitted to change your course on your arrival in the College. The course indicated on your offer letter is the course that you must follow. In addition, by accepting Griffith College's invitation to register, you acknowledge that Griffith College has made arrangements to provide the services necessary to support you in completing your course and you undertake that you will not, during the period of your Griffith College course, apply for or undertake any course of study in Ireland inconsistent with your participation on your Griffith College course. Also, as per visa regulations in Ireland it is not permissible to leave your programme of study at any time and join a programme of lower academic standing.

#### Students Who Require a Study Visa for Ireland

If you require a Study Visa for Ireland, you should pay your fees as indicated above immediately so that we can issue you with an "Invitation to Register" letter to join the College. You can then use this "Invitation to Register" to support your application for a Study Visa. You cannot apply for a Study Visa without this "Invitation to Register" letter.

**Irish Naturalisation and Immigration Service (INIS):** The College is required to send updated details in respect of all Non-EU students to INIS, to facilitate the INIS registration process.

- Please note that all courses will commence subject to an appropriate number of participants undertaking the course.
- If you have submitted original documentation as part of your application, Griffith College will return to the correspondence address immediately. Griffith College does not destroy or store original documents.

*Please note that your offer of admission is specific to the term and major above.*

### **YOUR ADMISSION DECISION**

**Congratulations!** Drexel University is pleased to offer you admission. An official admission letter has been sent to you by mail.

### **SCHOLARSHIP INFORMATION**

Scholarship funds are disbursed evenly throughout your program based on the number of courses/credits you are enrolled in per term. Valid only for the admitted program and term. Funds are not applicable to courses taken outside of the required plan of study or additional programs/certificates pursued.

I am pleased to share that you have been selected to receive an Alumni Merit Scholarship in the amount of \$20,000 over 45 credits. This award is made possible from the generosity of our alumni who give back to help future generations of LeBow College of Business graduates.

### **CONDITIONS OF YOUR ADMISSION**

#### **Provisional Admission**

Your offer of admission is provisional based on the need to submit official copies of your South Indian Education Society (SIES) Graduate School of Technology transcripts showing degree conferral. Failure to comply with this provision by September 1, 2019 will result in an academic hold being placed on your account

. If applicable, documentation that the provisions have been met must be received before you can begin the program.

#### **Final Transcripts**

If you are currently enrolled in a college or university, you must submit final transcripts. If final transcripts are not received prior to the start of coursework at Drexel, a registration hold may be placed on your account. Drexel University reserves the right to withdraw your offer of admission in the event that 1) you show a significant drop in academic performance, 2) you fail to graduate, 3) you misrepresent yourself in the application process, or 4) the University learns that you have engaged in behavior prior to enrollment that indicated a serious lack of judgment or integrity.

## NEXT STEPS

Now that you have been admitted, there are some additional items you must complete before officially becoming a student at Drexel University.

### Confirm Your Enrollment at Drexel University

To reserve your seat in the entering class, please submit the non-refundable tuition deposit by **Thursday, April 4**. This deposit will be applied to your tuition bill. Confirm your enrollment and submit your deposit now (<https://discover.drexel.edu/bannerSSO>).

Check out the Graduate Admissions Admitted Students page (<http://drexel.edu/grad/resources/admitted/>) for additional steps.

### Submit Required I-20 Application Documents

Students without United States Citizenship or Permanent Residence (also called a Green Card) will require a visa that permits them to study in the United States. Some foreign students already have a visa that allows them to study at an American university. It is important to know whether that visa will also allow you to work, especially if you will pursue a program at Drexel with a co-op requirement (cooperative education).

Please note that only those students who have confirmed their acceptance to Drexel can start the visa application. Drexel can support you in pursuing one of two types of student visas: an F-1 visa or a J-1 visa. If you have any concerns or questions about what type of visa you need in order to pursue your studies at Drexel University, please visit the International Students and Scholars Services Office website ([http://drexel.edu/studentlife/get\\_involved/international\\_students\\_scholars/new-international-students/](http://drexel.edu/studentlife/get_involved/international_students_scholars/new-international-students/)) to learn more about different visa types.

Dear Shruti Uttam,

Congratulations! It is with great pleasure that I offer you admission to the Packaging Science, MS program for the Fall 2019 term at Rochester Institute of Technology. Your admission is contingent on completing the requirements outlined on the RIT Graduate Admission Contingency form.

Your application and supporting documents detailing your accomplishments convinced the Admissions Committee that you have the scholarly aptitude to flourish in a diverse community of scholars, entrepreneurs and humanitarians. Admission to graduate study at RIT is a selective process; you should take pride in this attainment.

RIT is a university where brilliant minds assemble in service of innovative ideas and creative solutions. Among the nearly 4,000 colleges and universities in the U.S., **RIT ranks in the top 4 percent** for selectivity and is considered a "best value" university according to *U.S. News & World Report*. We invite you to accept our offer and avail yourself of the rich academic resources available to you.

To accept our offer of admission and complete the enrollment process, please complete the online Reply to Offer of Admission form by May 1, 2019, which can be found on your Application Status page at [join.rit.edu/account/login](http://join.rit.edu/account/login). After accepting our offer of admission, please pay the \$300.00 Advance Tuition Deposit by May 1, 2019. This reserves your place in the program, allows you to apply for campus housing and access online resources. Your academic department will provide you with registration procedures and course schedules.

If any questions arise regarding your admission, please check our website, [rit.edu/emcs/ptgrad/accepted](http://rit.edu/emcs/ptgrad/accepted), contact us at [gradinfo@rit.edu](mailto:gradinfo@rit.edu), or call us at 585-475-2229. From this point on, we will send you a series of emails containing important information about your admission to RIT. Be sure to add [gradinfo@rit.edu](mailto:gradinfo@rit.edu) to your approved sender list.

Again, congratulations, I am thrilled to welcome you to RIT.

Kanishk Jain

Dear Kanishk,

I am pleased to notify you of your acceptance into the Master of Science program in the Department of Mechanical Engineering-Engineering Mechanics (ME-EM) at Michigan Technological University for Fall 2018. Congratulations! This acceptance is contingent upon the successful completion of all requirements for a B.S. degree in Mechanical Engineering or closely related field.

You have been accepted without financial support and you should be fully prepared to support yourself during your studies. You may qualify for Financial Support at a later date. Financial support (an assistantship appointment) falls into two principal categories: Graduate Research Assistants (GRA) and Graduate Teaching Assistantship (GTA). Faculty are continually looking for highly qualified students to serve as a GRA. Once a student is accepted into the ME-EM graduate program - faculty who are looking for research assistants will have an opportunity to review applications and they can then contact any of the accepted applicants about support (this is an ongoing process). Should a faculty member decide to support you with a GRA prior to your arrival, you will be notified concerning the details. You may review the expertise of the ME-EM Department professors at <http://www.mtu.edu/mechanical/department/faculty/>.

However until you do find a faculty advisor and funding, you should plan to enroll as a full-time student in the course-work only Master of Science program. Under this plan, taking 10 credits of coursework per semester, you would be able to finish your degree in three semesters.

We look forward to your joining our graduate community. If you do decide to join us, please report to room 815 of the ME-EM Building as soon as it is convenient after your arrival. You will find the Graduate Student website <http://www.mtu.edu/gradschool/resources-for/faqs/> very informative for information prior to coming to Michigan Tech. The Graduate School will send information regarding housing, and if you have further academic or course selection questions please feel free to contact me at [craig@mtu.edu](mailto:craig@mtu.edu).

All students are required to follow the Michigan Technological University Student Conduct Policies and the Student Code of Community Conduct located at <http://www.mtu.edu/conduct/policies/student-conduct/> and <http://www.mtu.edu/conduct/policies/pdfs/codeofconduct.pdf> Students who receive university financial support and are found to be in violation of the Student Conduct Policies or Student Code of Community Conduct will be subject to termination of that support.

You will be required to attend the Graduate School Orientation or the ME-EM Graduate Student Orientation session the week of August 27, 2018. Every student is required to attend and complete the Responsible Conduct of Research training offered during the Graduate School Orientation session.

Sincerely,

*Craig R. Friedrich*

Dear Krutika Pai,

Congratulations! After careful consideration, the MS faculty admissions committee has accepted your application to the MS in Management Information Systems (MIS) program and is formally inviting you to be a member of the fall 2018 entering class.

Please note that your admission is provisional pending final review by the Office of International Admissions of your application and determination of your eligibility to receive the official documents necessary for a US student visa (should it be required). Additionally, your admission is provisional pending receipt of official transcripts, proof of completion of an earned baccalaureate degree from a regionally accredited college or university by the date of intended enrollment and any other required documents. You will receive further instructions from the UB Office of International Admissions with your I-20 / International Welcome Packet regarding which documents to bring to campus. Do not mail items to the School of Management office as they will be discarded. The University at Buffalo reserves the right to rescind admission and revoke the I-20 Certificate of Visa Eligibility if it learns that any fraudulent documents were submitted, if any false or misleading statements were submitted, or if any required information or documents were omitted as part of your application.

We are enthusiastic about you joining our program. As an accepted student, you are invited to visit our [incoming student website](#). All incoming MS students are required to attend MS Advantage, which runs **August 17 through August 18, 2018**. We strongly encourage you to arrive in Buffalo by **August 16**. International MS students must also attend the University's International Student Orientation. Classes begin on **August 27, 2018**.

If you have not uploaded your I-20 materials, please upload them to your application immediately. It can take up to 8 weeks for your I-20 to be issued. *Please note that we reserve the right to refuse tuition deposits received after the deadline.*

Lastly, since networking is such a crucial skill, I encourage you to begin building relationships with future peers and connecting with the School of Management on social media. Please contact the [Graduate Programs staff](#) with questions. I look forward to welcoming you to campus soon!

Dear Vishwanath Hegde,

It gives me great pleasure to inform you that you have been admitted to the Graduate School of Syracuse University. The faculty in Information Management has recommended that you be admitted for Spring 2018 as a Master of Science student. When communicating with the University about your admission, please refer to your unique, nine-digit Syracuse University identification number (SU-ID): 764516311.

We have created a web gateway for newly admitted graduate students that addresses pertinent enrollment information, some of which may require immediate action on your part. I encourage you to consult it as soon as possible. You will find this gateway at the following web address: [http://www.syr.edu/gradschool/em/current\\_gradchecklist.html](http://www.syr.edu/gradschool/em/current_gradchecklist.html).

The credentials that you have presented show your qualification to undertake study and research that will be vigorous, stimulating, and, we trust, rewarding for you. Congratulations and welcome to our graduate community, which has been a vital part of the university since its founding in 1870.

By the end of your first semester of study, you must submit an official transcript from your undergraduate institution which must bear the appropriate signatures and seal of the institution that issued it and must be received by Syracuse University in a sealed envelope directly from that institution. Unsealed documents which may have been in the hands of students are not considered official. After completion of the first semester of graduate study, the Graduate School may prohibit further registration for any student who has not met this requirement. The hold on registration will only be released when this requirement has been met. If you are a domestic student, in accordance with federal Title IV regulations, financial aid will be disbursed to the student account when all financial aid and admission requirements are met, including receipt of official degree-bearing transcripts. Please refer to [http://www.syr.edu/gradschool/em/current\\_gradchecklist.html](http://www.syr.edu/gradschool/em/current_gradchecklist.html) for additional information.

Sincerely,

Dear Janardhan Purushottam Chaudhari:

Congratulations! On behalf of your department's Graduate Scholarship Committee, I am pleased to inform you that you have been selected to receive a RIT Graduate Scholarship to support your graduate studies at RIT. This scholarship was awarded based on a review of your application and academic record.

Your award is calculated based on enrollment of 9 credits per semester. The scholarship will be amended based on your actual credit hours enrolled with the percentage of tuition covered by the scholarship remaining the same. A breakdown of current year's tuition rates per credit hour is provided on the back of this letter. For further explanation of your scholarship, please contact your program coordinator.

Award	Fall 2018	Spring 2019	Percentage of Tuition	Annual Total
RIT Graduate Scholarship	\$ 4,084	\$ 4,084	25%	\$ 8,168*

\*Estimated based on current tuition.

Full-time = 9+ semester hours; Part-time = 1-8 semester hours

The scholarship is automatically credited to your student account each semester after the drop/add period, and is for tuition only. In accordance with current tax laws, scholarships are not taxed unless they exceed the cost of tuition, books, and fees. An estimate of annual expenses including tuition, fees, and living expenses is included with your acceptance materials. This will assist you in planning for your educational costs at RIT. Students who qualify for a full RIT tuition waiver or full reimbursement from an employer is not eligible for the scholarship.

You must be in good academic standing to be considered for the renewal of your scholarship funding for future terms. Please contact your program coordinator to discuss the criteria for the scholarship renewal process.

We look forward to working with you as you pursue your graduate degree. We are certain that you will find your graduate studies at RIT to be fruitful and rewarding.

Sincerely,

Dear Ridima Ramesh,

Congratulations! It is my great pleasure to inform you that you have been accepted into the Master of Entertainment Technology (MET) degree program of Carnegie Mellon University. This decision is based upon final completion of your Bachelors Degree, and you will need to provide a final transcript, indicating the conferral of your degree.

The Entertainment Technology Center (ETC) embraces the worldwide nature of the interactive entertainment industry and reflects the reality of a world where interactive digital entertainment serves as the shared language of myriad generations from multiple cultures.

The curriculum of the ETC requires students to pass a rigorous, intensive, and challenging first semester that we refer to as the "ETC Immersion Semester". This semester is comprised of the following courses and challenges: 1) Building Virtual Worlds, 2) Visual Story, 3) Improvisational Acting, and 4) ETC Fundamentals. All ETC students must complete the Immersion Semester at our campus in Pittsburgh, PA, USA.

Following successful completion of this intensive first semester, ETC students must complete the following three semesters of study in one of three ways:

- Three Project Semesters
- Two Project Semesters and One Student-Defined Semester
- Two Project Semesters and One Co-Op Semester

The assignment of the project teams will take into consideration the student's career interest, skill sets, corporate or institutional sponsorship, visa requirements, and ETC location capacity. The student-defined semester will consist of four-five courses that must be approved by ETC faculty. The Co-Op semester allows students to work full-time at a company while earning academic credit at the ETC. Students must receive an employment offer from a company as well as faculty approval to complete a Co-Op.

Currently, the ETC encompasses sites in Pittsburgh, PA, and Silicon Valley, CA, USA. The curriculum and quality of instruction at both ETC locations will reflect the high standards for which the Carnegie Mellon Entertainment Technology Center has become renowned.

**Enrollment requirements:**

- You must complete 9 semester credit hours in the Fall and Spring, 6 in the Summer each year (summer credits often involve directed research).
- You must maintain satisfactory progress toward your degree with a 3.0 GPA in both your overall and major area of study (as well as in your minor area if a minor is declared).
- The academic year officially begins **January 7, 2019**.

**Departmental requirements:**

- Students must download and read through the MSE Graduate Student Handbook, which can be found at <http://www.mse.ufl.edu/students/prospective-students-2/graduate/#handbook>
- Students are highly encouraged to find a research group prior to arrival on campus. Students who do not have a research group prior to arrival on campus are expected to actively search for a research advisor as soon as possible. If a research advisor has not been designated by November 1 of the first semester, then that student will be expected to serve as a Teaching Assistant (TA) in the Spring semester of that academic year. Continued GSPA funding is contingent on finding a research group by the end of the spring semester.

Dear Mayura,

It is my pleasure to inform you that you have been accepted into the Computer Information Systems' Master of Science Program at Grand Valley State University. On behalf of the staff and faculty we would like to welcome and congratulate you.

Graduate students choose GVSU's Computer Information Systems program because of the quality of instruction and the ability to tailor their degree program to their specific goals. The CIS program currently offers six tracks of study ranging from Distributed Systems to Information Systems Management. By choosing the tracks that fit your goals, the CIS program allows you to gain the skills you need to set yourself above the rest.

It is imperative that you understand the program requirements, as well as any course prerequisites. Therefore, all CIS students are required to submit a detailed plan of study before taking courses. The plan of study must specify which courses you are planning to take and in which semesters. Keep in mind that all students are required to complete both CIS 500 and CIS 501. You can find more information about requirements and prerequisites by consulting the GVSU catalog or by visiting our web site at [www.gvsu.edu/grad/cis](http://www.gvsu.edu/grad/cis). When your plan of study is complete, please email it to me for review.

I look forward to working with you as you pursue your Master of Science Degree in Computer Information Systems at Grand Valley State University. If you have any questions, please feel free to email me at [adamsr@gvsu.edu](mailto:adamsr@gvsu.edu).

Dear Rohit,

Congratulations! It is our great pleasure to inform you that you have been accepted into the MS Computer Science program within the College of Information and Computer Sciences at the University of Massachusetts Amherst for the fall 2017 semester. I have forwarded an acceptance recommendation to the University of Massachusetts' Graduate School, which will send out a formal acceptance letter soon.

**Our graduate program is among the highest-ranked and highest-impact research programs in the world.** We currently have a faculty of 46 tenure-track professors engaged in cutting-edge research and, along with six teaching faculty, delivering high-quality teaching at all levels. The College of Information and Computer Sciences at the University of Massachusetts Amherst is distinguished by its unique culture of collaboration.

Before you accept our offer of admission to the MS program, we want to be sure you're aware of the financial cost of the program. Students admitted to the College of Information and Computer Sciences MS program are not eligible for on-campus assistantships (see <https://cics.umass.edu/grads/fees>). You will be eligible for other forms of on-campus employment, however. For tuition and fee information, visit <http://www.umass.edu/bursar/document/graduate-tuition-rates>.

The University of Massachusetts Amherst is the flagship campus of the University of Massachusetts system and is located in a beautiful and bustling New England college town ranked as one of the top 10 College Towns in America by U.S. News. Amherst's population is progressive and highly educated; 42% have graduate degrees—the highest in the USA. The cost of living in the Amherst / Northampton area is relatively low; at the same time, it is convenient to both Boston and New York City.

We ask that students please respond to the offer of admission by April 15, 2017. In the past, we have been able to offer admission to fewer than 10% of our applicants, wait-listing many highly qualified students. Please let us know as soon as you have made your decision to facilitate our handling of our waiting list.

We hope that you will decide to join us at UMass Amherst. We look forward to meeting and working with you. Congratulations again!

Dear Siddhant:

**Congratulations!** We are pleased to inform you that you have been granted conditional admission into the Florida Interactive Entertainment Academy (FIEA) at the University of Central Florida for the Fall 2017 semester. This acceptance is conditional because we have not yet received your official final transcripts. After your Bachelor's degree is complete, official final transcripts are due to Graduate Studies by mid-term of the Fall 2017 semester. **We must receive these items no later than October 15, 2017.**

You may accept or decline the admission offer by going online to <https://my.ucf.edu> using your personal identification number (PID) and clicking on Student Self Service > Graduate Students > Student Center. Once here, scroll down to "Accept/Decline Admissions." **Please accept or decline our offer by March 31, 2017.**

If you accept, you will still have a few additional steps to complete your admission with UCF. First, keep in mind that you will need to turn in your final transcripts to Graduate Studies by the date listed above. Second, our department holds a mandatory orientation at the beginning of the Fall semester. We will be contacting you with the date and time of orientation and you will be expected to attend.

Since most of our communication with you will be through email, please keep us updated with your contact information. You should also update your email address, phone number and mailing address at <https://my.ucf.edu>.

We hope that you choose to do your Graduate studies with us, and look forward to having you join our select group of video-game producers, programmers and artists. Dear Sandeep,

Congratulations! I am pleased to inform you that you have been admitted as a student to the MS degree in Computer Science for Fall 2017 term.

As a newly admitted Computer Science student we strongly urge you to visit <http://www.cs.uic.edu/new-students/> for information on various orientations and details to make your transition to UIC a success. If you have questions concerning our graduate program, please contact the CS Student Affairs office at [grad@cs.uic.edu](mailto:grad@cs.uic.edu) or call (312) 413-4950 / (312) 413-5643; Please include your UIN: (677515266) in all correspondence.

MS students are not usually funded by the CS department but a majority of CS graduate students find funding for at least partial if not full term of their program. This is primarily due to the valuable skills they possess as a computer scientist that are necessary to non-CS departments. The funding is in the form graduate hourly positions that pays by the hour or assistantship that carry a waiver of some fees and a monthly stipend. The CS department does not manage a list of graduate positions on campus. Review the university approved listings at <http://jobs.uic.edu/job-board?start=1&per=5000> under "Graduate Assistant" and "Graduate Hourly".

The Office of Admissions and Records (OAR) and Graduate College must still approve this recommendation for admission. If approved, OAR will process the official admission and send you a letter outlining information about registration and steps you have to take to complete your admission.

OAR will determine your citizenship and residency classification. If you are classified as an international student seeking a visa, you will receive an e-mail from the Office of International Services (OIS) regarding the submission of any necessary documents to obtain an I-20. You will also be able to access most of this information via your application portal.

We hope you consider joining our program and look forward to welcoming you into our academic family.

Dear Ms. Gadewar,

Congratulations on your admission to graduate study at the University of Southern California. Your academic records indicate that you will make a significant contribution to academic life at the university.

You have been admitted as a graduate student in Electrical Engineering within the Andrew and Erna Viterbi School of Engineering for Fall 2017. Your degree objective is the Master of Science. Please include your USC ID (2012-6403-00) whenever you correspond with the university. This admission is offered subject to your maintaining your present level of academic achievement. If you have not already done so, you must provide proof of satisfactory completion of any studies in progress, and submit final academic records from each institution you have attended. Change of major requests may be submitted only after completion of your first semester. Please carefully review the Continuing Registration Requirement information which lists all the requirements you must meet within your first term(s) of USC enrollment to continue in your degree program. You must meet with a staff advisor to resolve these conditions.

OFFICE OF ADMISSION

Dear Ms. Gadewar,

USCID: 2012-6403-00

Your application for admission to the University of Southern California has been received and reviewed. We are pleased to inform you that you are academically eligible for admission to the Fall 2017 semester as a graduate student majoring in Electrical Engineering, leading toward a Master of Science. However, **your application is not yet complete.**

Federal immigration regulations require all international students to demonstrate proof of ability to pay tuition and living expenses for themselves and their dependents (if applicable). You must therefore submit an **affidavit of financial support and a copy of your passport.** If applicable, please also submit passport copies for each of your dependents. (This is necessary only if your dependents will be travelling with you and are planning to apply for an F-2 or J-2 visa.) **These documents must be received and approved before your official USC letter of admission can be issued.**

If your studies are being privately financed, in whole or in part, you must submit both a bank letter and a letter from your sponsor (if not yourself) promising support for one year. If your home government or an external agency is sponsoring you, we require a current letter addressed to USC specifying the terms of your award and the amount of funding you are due to receive. Please visit the [Submitting Financial Documents](#) page of our website for detailed [financial documentation guidelines](#) and estimated expenses for your program.

If you are receiving a fellowship or scholarship from USC, please request that your department submit your award documentation to the Office of Graduate Admission, if they have not done so already. Please note that students receiving full funding from USC are required to submit only a copy of their passport.

You can submit your financial documents (including the letter of sponsorship) and passport copy as attachments in PDF or JPEG format [here](#). Under the *Select a Category* drop-down menu, select *Immigration Matters (I-20, Visas, etc.)*. Please include your 10 digit USC ID number in the message to ensure faster processing.

You should also use this site to notify us if you are currently on another non-immigration visa and wish to remain on the visa for the duration of your study at USC.

We highly recommend submitting your documents at your earliest convenience so that you may complete the certification process in a timely manner and receive your I-20 or DS-2019.

Sincerely,

Dear Shravan,

I am pleased to inform you that we approve your admission to graduate studies in our School of Engineering and Applied Science. We welcome you to our Master of Engineering Degree Program in Mechanical and Aerospace Engineering beginning Fall 2017. Your admission is contingent upon receipt and satisfactory evaluation of all required transcripts and official test scores. We expect all supporting documents to be received before the beginning of your first term.

Foreign national students at the University of Virginia are subject to U.S. government regulations. University policy states: "To enroll at the University a foreign national student must be lawfully present in the United States based on U.S. federal immigration law and any visa status held must not prohibit the desired University enrollment." It is your responsibility to comply with all U.S. federal immigration regulations regarding the maintenance of visa status and lawful presence in the U.S.; failure to do so may result in not being able to enroll at the University.

If you accept this offer of admission please refer to the University of Virginia Confirmation of Lawful Presence form. Please complete this form and return it to us together with the required evidence. If you require a Form I-20 or Form DS-2019 to support F-1 or J-1 visa status, please follow the instructions on the form for information on obtaining a visa document. Note that forms and documents should be sent to the Engineering Graduate Studies Office at the address at the bottom of the page at least 4-5 months prior to the semester you begin, if you are not in the U.S. You may email Iva Gillet if you have any questions about this process at iva3@virginia.edu.

All students whose first or native language is not English are required to take the Virginia English Language Proficiency Exam (UVELPE) prior to their first semester at UVa. Please visit the Center for American English Language and Culture website for the date, time and location for the UVELPE. Note that you cannot fail the UVELPE; based on the results, some students are recommended for writing or spoken English classes, designed to ensure a successful research and teaching career at the University of Virginia.

I encourage you to visit the UVa Graduate Student Guide for a wealth of information about the Charlottesville area and particularly the Getting Settled link for information about housing, parking, banking and other useful topics. Charlottesville is a beautiful small city (population 40,000) nestled in the foothills of the Blue Ridge Mountains in central Virginia. It is frequently at the top of popular rankings for the "best places to live." The presence of the University of Virginia's vibrant community of students, faculty, and staff is one of the primary reasons that this area thrives.

The safety and well-being of our students is among our highest priorities at the University of Virginia. We are committed to assisting all members of our community in providing for their own safety and security. For more information about this important topic please see our Safety Information page.

If you choose to join our graduate program in Fall 2017, and we sincerely hope you will, please go to the Enrollment Page and click "Yes". If you are unable to join us, please inform us of that as well. We would be grateful if you would provide information on

Dear Suraj:

Congratulations! I am pleased to notify you of your acceptance into the Mechanical Engineering MS program for Spring 2018.

You are being admitted into a coursework only, non-thesis Master's degree program. Please be advised that funding is not available from the department as a GTA. GRA decisions are made by individual faculty members but none have expressed a need for GRAs at this time. See FAQ <http://www.mtu.edu/mechanical/graduate/advising/faqs/#faq0340>

All graduate students are required to complete basic and advanced training in the area of responsible conduct for research. You may fulfill the basic training requirement by attending Spring orientation on 11-JAN-2018 or by completing an online training course.

If you have not already provided our office with your final transcript(s) / diploma(s) indicating proof of previous degree(s) awarded, and a certified English copy thereof, please make sure they have been sent by your previous institution(s) as soon as they are available.

Research and teaching assistantships are awarded by your department and questions regarding this form of aid should be directed to them. Resources to assist you prior to your arrival on campus can be found both in the Enrollment Checklist on your personalized MyMichiganTech (<https://www.mymichigantech.mtu.edu>) and on our additional resources website for incoming students (<http://www.mtu.edu/gradschool/resources-for/students/admitted/on-campus/international/>).

Unless your program requires you to arrive at an earlier date, plan to be on campus on or before 09-JAN-2018, which is one week before classes begin. Please report to the International Programs and Services Office (IPS) immediately upon your arrival to campus. An I-20 or DS-2019, if not enclosed, will be sent to you separately.
