We are glad that you spent valuable years as a student in SIES Graduate School Of technology. While we tried to make your time here most useful, we would like to know your opinion, now that you have moved on. The input of engineering program constituencies is vital to the development and improvement of the program. In particular, your feedback as alumni will be very helpful in structuring the program's curriculum and also for continuous development of the program's educational objectives. Furthermore, it can be used as a link between industrial issues and the development of the curriculum. Also, alumni perceptions can be considered for prioritizing topics. Kindly spare some of your valuable time to fill up this form and give us your valuable feedback and suggestions for further improvement. Your inputs will be of great use to improve the quality of our academic program and enhance the credibility of our college. You may also visit the SIESGST website at www.siesgst.edu.in for more details. Please fill the Google Form and let us know your valuable feedback.

Questions: 1 Response: 0

students at assistant stop them from taking these initiatives One of the best good things was the organizing of Hackathons in college. That also was due to the contribution of few students in the college. First year of college was nothing but a waste of time. Same topics from 11th and 12th class were taught to us. Innumerable subjects pertaining to other branches were taught. Zero encouragement towards the culture of technical reuse. As in our college. Lastly zero efforts taken to ensure placement of unplaced

Engineering is not a suffering and drudgery work. Engineering is fun and enjoyable.

Most important suggestion is that instead of giving too many projects for B.E. go for special projects. 10-12 students per project and each project be based on product design and development based on renewable energy and alternatives. Like 1) air cycle 2) solar energy receiver 3) design of wind turbines 4) design and fabrication of flat plate collectors using easily available materials etc.

Such projects are future ready!

Focus on renewable energy will surely bring a clean alternative to current energy alternatives.

I am currently working with nanotechnology technology of forming without tool using in Mechanical Engineering this is something completely different but in future will bring a positive impact on health and food.

Work for India and Make for India

Praveen Patel
SS Mechanical 2019-17

Try to connect students for internships or have a company institution collaboration where the company assigns small tasks which can be completed by a professor and group of students. This should start from a very early semester preferably during the 4th semester. This automatically helps to fill the holes between academic and industry work which is a great help for the students and also for the company.

	AGENDA OF MEETING EXTC Departmental Meeting
---	---

Date:	September 22, 2017
Convener:	Dr. Atul Kemkar
Time:	9.30 am
Venue:	Lab 306

No.	Agenda & Discussions <i>Prof. Preeti Hemmani (EXTC) SIESGST-NERUL</i>
------------	--

- I. **Approval for departmental Mission & Vision, PEO's and PSO's**
VISION
 To be a Premier Department in Electronics & Telecommunications Engineering.
MISSION
 1. To provide quality education satisfying the requirements of corporate world across diverse fields.
 2. To develop life-long learning skills to cater to the socio-economic needs.
 3. To strengthen Industry-Institute Interaction to bridge the gap between academic and industrial requirements.
 4. To equip students with leadership and entrepreneurial skills.**PEO's:**
 1. Identify, formulate and solve engineering problems in the Industry, complying with ethical standards and societal needs.
 2. Pursue higher studies and professional development courses leading to significant advancement in the field of specialization.
 3. Apply technical concepts to develop applications and design products.
 4. Exhibit leadership and entrepreneurial acumen in career.**PSO's:**
 1. Achieve eminence in domains like signal processing, VLSI, embedded IoT, RF and Microwave.
 2. Become technocrats capable of working in multi disciplinary fields.

	MINUTES OF MEETING Department Advisory Board
---	--

Date:	September 01, 2018
Convenor:	Dr. Rizwana Shaikh
Time:	10:30 am to 12:30
Venue:	Tutorial Room CE department

No.	Agenda & Discussions
1.	Approval for various Student development activities planned.
2.	Approval for various NBA related activities
3.	Discussion about Third year students projects and their participation in competition
4.	Internship for SE and TE students
5.	CSI activity: TO enhance programming skills of C/Java/SQL for TE and SE students
6.	Suggestions to bring about substantial improvements over our earlier performances

Coordinator	Prof. Aparna Bannore

	MINUTES OF MEETING Department Advisory Board
---	--

Date:	Oct 19, 2019
Convener:	Dr. Aparna Bannore
Time:	2:00 pm
Venue:	Computer Lab No 05

No.	Agenda & Discussions
1.	Confirmation of last minutes
2.	Gap identification and approval .Approval of various SDP and activities planned for covering the gap
3.	Internship activities
4.	Acereditation
	Discussion:
1.	Meeting started by welcoming the members of DAB namely Industry expert Mr.Darshan Nair(NSDL,Mumbai) and Mr.Jayant Dani(TCS) , Academician Dr.Sudhir Dhage (Professor,CE department ,SPIT Mumbai) ,Ms.Pooja Rao(Alumni) ,Ms.Vrushali Alugade (SIES Alumni: TCS) and student member Mr.Saiprasad Ganesh by HOD, Ms.Aparna Bannore. All the members were made aware about the Institute vision mission and department Vision Mission.
2.	All the members confirmed the previous minutes of meeting. The meeting started with the first agenda of Identification of curriculum and industrial gap in the courses wherein students lack of interest in perusing studies with SQL databases where the industry now a days is working on NoSQL ,industry expert Mr. Darshan Nair pointed out the need for the knowledge of basic sql and the fact that industry requires data analyst. Mr.Dani suggested to include miniproject development instead of application where in students will play around cost based query optimization and improving the transaction execution time. Mr.Darshan suggested to assign students miniprojects related to inhouse GST related projects.
3.	The next agenda was related to Student development programs conducted and planned in the coming semester, Dani sir asked to suggested to focus on approach for problem solving and then to coding skills. Darshan sir asked to emphasize on use of open source programming and the requirement of students exposing to various architectural styles where they will understand the communication between various components like how web server communicates with database server. Student member saiprasad insisted that the students interest can be developed if he is given information wrt applications where this knowledge will be useful. Darshan sir insisted that one should also understand system first and then design solution for the problem. The students approach is exam centric so there are limitations as was expressed by Dr.Rizwana Shaikh. Darshan sir emphasized to insist

	MINUTES OF MEETING Department Advisory Board
---	--

	alumni to deliver talks related to understanding systems and applications importance.Dani sir reiterated to include projects connecting different courses.
4.	The issue about students getting internship in their domain of interest from industry is difficult and aicte is bringing 600 hrs of internship for each student is a major task being raised by Mrs.Aparna, to that the industry expert said that company's will not be interested in providing internship for not less than three months of time. Mrs.Varsha Patil placement coordinator for department asked about the effect of conducting internship fair in the college campus, the experts suggested that until some flexibility is not given to the student, very few companys will be of help for internship but the department can give a try.
5.	The issue about students getting internship in their domain of interest from industry is difficult and aicte is bringing 600 hrs of internship for each student is a major task being raised by Mrs.Aparna, to that the industry expert said that company's will not be interested in providing internship for not less than three months of time. Mrs.Varsha Patil placement coordinator for department asked about the effect of conducting internship fair in the college campus, the experts suggested that until some flexibility is not given to the student, very few companys will be of help for internship but the department can give a try.
6.	Regarding various POs which are mapped to the Cos ,Dr.Dhage suggested that the faulty and subject expert can modify the Cos as per the modules and contents they are covering. Dr.Dhage emphasized on the need of setting target for the co attainment and a knowledge of how much percentage of course syllabus maps to the specific POs. Once the target for CO to a specific PO is set then the complexity in the assignment and test papers can be increased. Mr.Darshan insisted on involving industry assigned problem statement to the students for achieving some specific Cos. Ms.Pooja rao asserted that the need of knowing the students interest also plays vital role in improving their involvement in completing the project work. Mr.Darshan suggested about setting the Knowledge forum where we can post our problems and are answered quickly. Student Sai Prasad stated need for one to one mentorship to the students interested in participating in projects competition like hackathon.
7.	During the approval of the department objectives Dr.Dhage suggested to first specify the need to set the target and justify the target specified is appropriate. Mr.Darshan asked to collect the student's interest in participating in various competitions and then approaching the companies based on that.
8.	While discussing about non-audit courses department is planning to lauch in the vacations which includes Ethical hacking and security.Data science using R and Software design thinking, Mr.Darshan pointed out to make use of CSR funds available with the various companies to contact NSDC and other companies which will promote the courses of their interest. He also insisted the need to conduct some non-technical courses related to softskills and team building.
9.	Meeting concluded by the vote of thanks by HOD the invitees for sharing their expertise with the members. The Invitees proceeded to meet with Hon. Advisor Dr. Parmeswaran after the meeting.
	Action Points:
1.	The Industry expert talks will be approved by the DAB members in future either through

 MINUTES OF MEETING Department Advisory Board	
	mail or in person.
2.	Various initiatives to provide internship opportunities to the students are taken by the department, Dr.Rajesh Kadu IIC coordinator will formulate the internship policy.
3.	In the new syllabus (R-2019), the faculty member/subject expert could include specific CO if required.
4.	The second department objective is modified after DAB meeting with the statement: To improve the quality publication count by 25%. For the academic year 2018-19 total publications are 17,the target for 2019-20 is 22 research publications.
5.	For the staff development, AICTE-ISTE approved STTF on Cloud and High performance computing is planned in the month of December apart from 4 internship based SDP for skill enhancement of the students are planned namely 1) Block chain technology 2)R Programming 3)Ethical Hacking and Security 4) Software design thinking .

ANY OTHER REMARKS AND SUGGESTIONS:

Omkar is versatile team member. He always readily volunteers to provide help in any technical implementation outside his main assignments. He has provided his best in all the projects that he was given opportunity to work on. He did an exceptional job in understanding CE eco-system and providing his best foot forward and received good feedback for his dedication from tech lead of the project. He was also part of a couple of POCs - GQL federation and Control Integration - as an ad-on work to sprint responsibility. I have not seen such a bright Software Engineer in my career.

Placement Feedback from Employers

Please rate the students of SIES Graduate School of Technology, as per your observation during the campus, with respect to following areas.

Sl No.	Excellent	Best	Good	Average	Poor
1			✓		
2				✓	
3				✓	
4			✓		
5				✓	
6			✓		

Remarks/Suggestions: Last year GEP had a best experience and rated SIES the best choice and brightest select. Last year it was a tough decision to eliminate anyone, looking at the quality of pool.

We had a very different experience and found quality of students was 50% down.

→ Technically very average

→ ~~we found~~

→ we found lot of gaps in the projects

→ Crowd was very QA oriented but coder or pure tech we found found as last year

Signature with Name and Date: 2/19/16

Name of the Organisation: GEP Sol-Pvt Ltd

→ Overall it was a decent experience but there is lot of improvement require

→ I we can discuss and together work to make next year batch better

Thank You!!
